VULNERABLE PERSONS

This act defines "vulnerable person" as any person in the custody, care, or control of the department that is receiving services from an operated, funded, licensed, or certified program. This act also creates the crime of "vulnerable person abuse" and provides for mandatory reporting of suspected vulnerable person abuse as well as investigation protocols. (Sections 565.210 to 565.220, 630.005, 630.163)

SEX OFFENDER NOTIFICATION

This act provides that the Department of Mental Health shall develop rules, guidelines, and protocols for an initial notification to parents or guardians of a resident when first entering the care and custody of the department regarding the possibility of being placed in a facility with another resident who is either a registered sexual offender or who has been determined to lack capacity to stand trial for offenses the resident would have otherwise been required to register as a sexual offender. Such rules and protocols shall include the process and mechanisms for assessing risk, for planning and providing care and safety, and for the provision of services and supports necessary to mitigate risk for persons residing in a state mental health facility.

The department shall also notify a parent or guardian of a resident that a registered sexual offender is residing in or has been placed in the same state facility as the resident. Such protocols shall also provide a mechanism for the parent or guardian to raise any concerns and to seek consultation prior to placement of the registered sexual offender.

The department shall also develop rules and protocols to obtain consent from the parent or guardian of a resident who has been determined to lack capacity to stand trial for offenses the resident would have otherwise been required to register as a sexual offender to disclose his or her name and criminal charges to the other parents or guardians of residents residing in the same facility. Such request for disclosure shall inform all parties of the steps to be taken in the event consent to disclose is given or denied. Refusal to grant consent under this subsection by a parent or guardian shall not prevent placement. (Section 630.127)

ABUSE AND NEGLECT INVESTIGATIONS

Under current law the findings of abuse and neglect investigations conducted by the Department of Mental Health are confidential and reports of the investigations can only be issued to the parent or guardian of the Department of Mental Health client who is the subject of the investigation. This act makes the final reports of substantiated Department of Mental Health abuse and neglect investigations at state facilities and contract providers issued on or after August 28, 2007, available as public documents, with restrictions on the release of any identifying information about clients and staff. (Section 630.167)

This act also provides that records and files maintained in any court proceeding shall be confidential and available to the Missouri state highway patrol for reporting to the National Instant Criminal Background Check System (NICS). (Section 630.140).

This act increases the penalty for a mandated reporter not reporting abuse and neglect from an infraction to a Class A misdemeanor. This act also imposes sanctions and penalties on providers that prevent or discourage the reporting of abuse and neglect. (Section 630.165)

Sections 238.202, 238.207, 238.208, 238.220, 238.225, & 238.275

These sections modify several provisions of law relating to transportation development districts. These sections modify the definition of "qualified electors" to mean residents within a proposed district registered to vote and property owners who shall receive one vote per acre. The definition provides that any registered voter who is also a property owner must choose to vote as an owner or a registered voter. These sections make a technical change to what a transportation development petition must contain. The law currently provides that the petition must contain a proposal for funding a district, with a request that the funding proposal be submitted to the qualified voters residing in the proposed district. These sections require the TDD petition to set forth the estimated project costs and the anticipated revenues to be collected from the project. These sections remove the word "residing" since that term is inconsistent with the portion of the TDD law that allows districts to be formed where there are no residents in the proposed district. These sections provide for the deannexation of property from a transportation development district but only with the unanimous consent of the property owners and the removal of such property will not materially affect the obligations of the district. These sections modify the process for submitting TDD plans to the state highways and transportation commission. The act provides for preliminary approval of a project by the commission. After such preliminary approval, the district may impose taxes and assessments. These sections provide for the speedier transfer of a TDD project to the commission or local transportation authority provided the recipient consents. For the purposes of determining board members of TDDs, owners of real property within the district and their legally authorized representatives shall be deemed residents. For business organizations and other entities owning property within the district, individuals legally authorized to represent business organizations shall be deemed residents.

These sections require volunteer fire protection associations to identify their boundaries and file them with the county, rather than allowing them to do so. Any volunteer fire protection association is prohibited from encroaching upon or including any portion of another fire department's legally established boundaries.

Except for state agencies, fire protection districts, municipal fire departments, and volunteer fire protection associations shall be the sole providers of services within their defined boundaries. Other associations may provide services upon approval by the appropriate governing body and may appeal the decision when denied approval in circuit court.

CCS/HCS/SB 25 - This act modifies provisions relating to children's services administered by the Department of Social Services.

CHILD ABUSE AND NEGLECT INVESTIGATIONS

This act prohibits the Missouri Children's Division from closing a child abuse or neglect investigation if a child subject to the investigation dies during the course of the investigation, until such time as any separate investigation by the Division regarding the death is completed. (Section 210.145)

FOSTER PARENTS' BILL OF RIGHTS

This act modifies several provisions regarding the rights of foster parents, and states that the children's division and its contractors shall provide foster parents with written notification of the rights enumerated in this act at the time of initial licensure or renewal of licensure.

The act provides that the division and its contractors shall provide foster parents with regularly scheduled opportunities for preservice training and pertinent inservice training, as determined by the Missouri State Foster Care and Youth Advisory Board. The division and its contractors shall provide to foster and potential adoptive parents, prior to placement of children, a full disclosure of all medical, psychological, and psychiatric conditions of the child, information from previous placements that would indicate a propensity of the child to engage in violent or destructive behavior, information related to the child or child's family including history of mental or physical illness, sexual abuse or perpetration, criminal background, fire-setting or other destructive behavior, substance abuse, or any other information that is pertinent to the care and needs of the child and protection of the foster or adoptive family. Knowingly providing false or misleading information in order to secure placement for a child shall be denoted in the caseworker's file and shall be kept on record by the division. Foster parents shall be informed in a timely manner of all team meetings related to licensure status or children placed in their home. Foster parents shall follow all division and contractor procedures related to requesting and using respite care.

The act also provides that foster parents may share otherwise confidential information about children in their care with school personnel in order to secure safe and appropriate education for such children, and may share such information as is necessary for medical or psychiatric care of the child. Foster parents also must share any concerns that arise in the care of any child in their home with members of the child welfare team. Foster parents are also required to be flexible and cooperative with regard to family visits.

The act states that the division and its contractors shall provide foster parents with training that specifically addresses cultural needs of foster children, including but not limited to skin and hair care, and religious or cultural practices of the child's biological family, and shall provide referrals to community resources for ongoing education and support. Foster parents shall use discipline methods which are consistent with division policy.

The act also provides that foster parents shall give two weeks notice when requesting removal of a child in their home, except in emergency situations. Also, if a child reenters the foster care system and cannot be placed in a relative home, such child's former foster parents shall be given first consideration for placement of the child. If a foster child becomes free for adoption, foster parents shall inform the caseworker within 60 days of any inquiry as to whether they desire to pursue adoption, and if they choose not to do so, foster parents shall support the child's placement in a permanent home by providing information on the history and care needs of the child, as well as accommodating transitional visitation.

SPONSOR: Champion

HANDLER: Franz

The act provides that foster parents shall be informed by the court no later than two weeks prior of all court hearings pertaining to a child in their care.

The act also provides that the division and its contractors shall provide access to an impartial grievance procedure to address issues relating to foster parent licensure, case management decisions, and service issues. (Section 210.566)

These provisions are substantially similar to SB 697 (2007).

CHILD SUPPORT ENFORCEMENT

This act modifies various provisions relating to child support enforcement. Under current law, the Child Support Enforcement Division may certify a person who owes a child support arrearage in excess of 5,000 dollars to the appropriate federal agency for denial, suspension or limitation of a passport to such person. This act lowers the arrearage threshold for passport denial certification from \$5,000 to \$2,500. This act also allows the division to open a corresponding child support case based on another state's request for assistance.

Definitions for "parent," "dependent child," "obligee," "obligor," and "public assistance" are modified. Among such modifications are adding putative father and legal father into the definition of "parent" and adding the state into the definition of "obligee."

This act also allows the Child Support Enforcement Division to collect past due support owed to the state when a caretaker relative was on assistance or the child was in the custody of the state. The division is also allowed to establish an administrative order against any parent who does not already have an order against them. Under current law, the division can only establish an order if there is no order of support for the child. The division is also allowed to vacate an order which was improperly entered without jurisdiction or due process. Under current law, a court order is needed in order to avoid these orders. This act also specifies that an administrative modification can be made and must be approved by the court to become an enforceable order. If the order is not approved, the matter is then set for trial de novo.

This act also authorizes the Missouri Gaming Commission to direct gambling boats to intercept and pay over gambling winnings to individuals who owe past-due support or state debt, if winnings meet criteria for reporting to the Internal Revenue Service. (Section 454.390, 454.455, 454.460, 454.470, 454.496, 454.511, 511.350)

These provisions are substantially similar to SB 603 (2007) and HB 936 (2007).

HCS/SCS/SB 47 - This act bars public and private employers from firing an employee for joining any fire department, as a volunteer, or for missing work for responding to an emergency as a volunteer firefighter. Employers may, however, deduct hours missed by the employee from the employee's regular compensation. Employees must make a reasonable effort to notify their employers before they miss work and the employer may request the employee to provide the employer with a written statement from the supervisor of the volunteer fire department stating that the employee responded to an emergency and the time and date of such emergency.

Any employee who is fired in violation of this act has a cause of action for a civil suit against the employer in violation of the act. The employee may seek reinstatement to the employee's previous position, reinstatement of fringe benefits, back wages, and reinstatement of seniority rights. If the employee prevails in the action the employee shall be entitled to reasonable attorney's fees and costs of the action. The employee must bring an action within one year of the violation.

The act defines a "fire department" as an agency or organization that provides fire suppression activities. Sections 260.211 - 260.240

Under current law, the crime of illegally disposing demolition waste in the first degree is a Class A misdemeanor, illegally disposing demolition waste in the second degree is a Class C misdemeanor, and a second or subsequent offense is a Class D felony. This act removes the first and second degrees of the crime and instead makes any instance of illegal disposition of demolition waste a Class D felony as well as subject to the same penalty as what was for a crime in the first degree, which is up to \$20,000.

Any person who knowingly disposes more than 2,000 pounds or 400 cubic feet of his own personal construction or demolition waste on his own property shall be guilty of a Class C misdemeanor. Any person who receives remuneration from another person to dispose of such waste on his own property shall be guilty of a Class D felony.

The act makes similar modifications to the crime of illegal disposition of solid waste where it removes the first and second degrees of the crime, and makes a single instance of illegally disposing solid waste a Class D felony subject to a fine of not more than \$20,000.

The act expands the authority of the Department of Natural Resources to seek injunctive relief and civil penalties against operators of solid waste sanitary landfills and operators of transfer stations who violate certain fee collection provisions.

Section 386.890

This act requires retail electric suppliers to make net metering available to customers who have their own electric generation units that meet certain criteria, one of which is that the unit is powered by renewable energy resources. Net metering is where the customer gets credit for the electricity he or she generates in lieu of electricity supplied by the electric utility. Net metering shall be made available to customers on a first-come, first-served basis until the total rated generating capacity of the net metering systems equals 5% of the utility's single-hour peak load during the previous year.

Customers involved in net metering shall not be assessed any additional fees or charges and shall receive the same electric rates as an equivalent non-net metering customer.

The act describes how the net energy measurement shall be calculated and applied to the electric service billing. Customer-owned electric generation units must meet certain safety, performance, interconnection and reliability standards.

The Public Service Commission shall promulgate rules for the administration of this act. The rules shall require electric suppliers to use contract documents and an application process that is simple and easy to understand and shall require electric suppliers to annually report to the Commission with regard to the act.

Retail electric suppliers shall not be liable for damages caused by a customer-generator's generating unit when no evidence exists of fault by the supplier. Suppliers may discontinue electric service to any person who is determined to be conducting net metering without the approval of the supplier.

A retail electric supplier may use the energy generated by its customer-generators to meet any required renewable energy targets and may recover any costs associated with net metering in its rate structure.

The Attorney General is given authority to regulate merchandising practices associated with the sale of electric generating units.

The act repeals the Consumer Clean Energy Act.

This section is similar to SS/SCS/SB 674 (2007).

Sections 393.1020 - 393.1040

The act creates the Green Power Initiative. Electric companies shall make good-faith efforts toward meeting the following renewable energy targets:

- 4% of total retail electric sales come from certain renewable energy technologies by 2012;
- 8% of total retail electric sales come from certain renewable energy technologies by 2015; and
- 11% of total retail electric sales come from certain renewable energy technologies by 2020.

SPONSOR: Koster

Electricity generation from renewable sources prior to August 28, 2007 may be counted toward the targets, provided they continue to be used.

The act directs the Public Service Commission (PSC) to develop standards for measuring electric companies' progress in meeting the targets. The standards must protect against adverse economic impacts on the companies and reliability of service, as well as consider environmental compliance costs and technical feasibility. The PSC shall also develop a weighted scale that gives more credit to renewable energy technologies the PSC determines to be in the public's best interest.

The act establishes reporting requirements until 2022. Electric companies are required to report every two years on their progress toward meeting the targets. The PSC is required to report every two years on the progress made by electric companies and give recommendations for legislative action. The director of the Department of Economic Development shall report every two years on the impact of this progress on the state economy and the director of the Department of Natural Resources shall report every two years on the environmental impact of this progress.

Section 414.420

The act renames the Missouri Ethanol and Other Renewable Fuel Sources Commission to the Missouri Alternative Fuels Commission and expands its membership from seven to nine members. The two additional members shall be appointed by the Governor, which brings the total number of Governor-appointed members to five. The Governor-appointed members shall be engaged in the production or sale of alternative fuels.

The act directs the Commission to: 1) make recommendations on legislation to facilitate the sale and distribution of alternative fuels and alternative fuel vehicles; 2) promote the production and use of alternative fuels; 3) promote the development and use of alternative fuel vehicles and other related technology; 4) educate consumers about alternative fuels; 5) develop a long-range plan to reduce petroleum fuel use; and 6) report annually to the Governor and General Assembly.

This section is similar to SCS/SB 156 (2007).

Section 444.772

This section raises the maximum allowable fees that may be set by the Land Reclamation Commission, where permit fees may not exceed \$1,000, site fees may not exceed \$400 per site, bonded acre fees may not exceed \$20 per acre, and the cumulative total of permit fees or renewal permit fees may not exceed \$3,000.

Under current law, the per-acre fee is reduced by half for any acres assessed over one hundred. This act raises the acre threshold to two hundred to qualify for the reduced fee.

As of August 28, 2007, the fees shall be set at \$800 for a permit, \$400 per site, and \$10 per bonded acre. The Land Reclamation Commission may raise the fees by rule, provided a change in regulation necessitates the increased fees.

The expiration date for the fees is extended until December 31, 2013.

This section is similar to HB 880 (2007) and SB 329 (2007).

Section 643.079

Under current law, the Air Conservation Commission must establish the air pollution emission fees each year that are required to be paid by permitted air pollution sources. This section is similar to HB 782 (2007) and SB 223 (2007).

Under current law, such vehicles are to operated at a forested site and in area extending not more than a 50 mile radius from such site. The act increases the radius to 100 miles (Section 301.010). This provision is contained in SB 349 (2007).

Under the act, the definition is modified to include later model year vehicles (damaged during a year that is no more than 6 years after the manufacturer's model year designation) that are damaged to the extent the total cost of repairs to rebuild it exceeds 80% (up from 75%) of the fair market value of the vehicle prior to the time the vehicle was damaged. The definition is further modified by including vehicles that have been declared salvaged by an insurance company as a result of settlement of a claim. Current law requires the settlement be for a claim for loss due to damage or theft. In addition, when determining whether a vehicle is salvage or not, the total cost of repairs shall not include the cost of repairing hail damage (Section 301.010).

TEMPORARY PERMITS - This act modifies various provisions relating to temporary permits. The act removes references to the terms "plate" and "paper plate" from the temporary permit provision to unify the name as temporary permit (Section 301.140). A similar provision may be found in SB 335 (2007).

TITLE DESIGNATIONS - Under this act, when an application is made for a title in Missouri for a motor vehicle previously registered in another state and such vehicle was designated as a prior salvage vehicle, this designation shall be carried forward on the Missouri title (Section 301.190.12). The act provides that the absence of a prior designation on a an out-of-state title that the vehicle is a reconstructed motor vehicle, motor change vehicle, specially constructed motor vehicle or prior salvage vehicle shall not relieve the transferor of the duty to exercise due diligence with respect to the title prior to its transfer. If the transferor exercises due diligence with respect to the out-of-state title, then the transferor shall not be liable despite the fact that the title was not properly designated (Section 301.190.12). The act also repeals a doubly-enacted Section 301.190. A similar provision may be found in SB 335 (2007).

Applicants who reapply after the period of disqualification must meet the 6 sales requirement. The act also supplies a definition for "trailer dealer" that is similar to the definition of "motor vehicle dealer" with respect to minimum sales (Section 301.550).

Adoption of the revised compact makes Missouri a member of the Interstate Commission for the Placement of Children and requires the state to establish a central state compact office to be responsible for state compliance with the compact and rules of the commission. The compact establishes the powers and duties of the interstate commission and specifies provisions regarding bylaws, structure, rule-making authority, financing mechanism, a process for dispute resolution, and enforcement. The compact becomes effective August 28, 2007, or upon legislative enactment of the compact into law by no less than 35 states, whichever occurs later.

This act requires that a family support team meeting or juvenile court proceeding regarding the termination of parental rights be closed if a parent has terminated, in writing, his or her parental rights regarding a placement in a licensed child placing agency and allows a licensed child placing agency to file a petition for the transfer of custody. (Sections 210.620, 210.622, 210.625, 210.635, 210.640, 210.762)

HCS/SS/SCS/SB 284 - This act authorizes state-issued video service franchising. A video service authorization will be required for a person to provide video services within political subdivisions of the state. In order to receive a video service authorization, a video service provider or incumbent cable operator must file an application with the public service commission and provide notice to the political subdivision to receive the service. Within thirty days of receipt of an application, the public service commission must issue a video service authorization to the applicant. The video service authorization will include a grant of authority to provide service in the political subdivisions set forth in the application and a grant of authority to construct video service networks across or along public rights-of-way.

A person providing video service under a franchise agreement in effect prior to the effective date of the act may: continue to provide services under the provisions of the existing franchise agreement until its expiration; apply for a video service authorization as provided under the act; or if competition exists in the franchise entity served, automatically convert the existing franchise into a state-issued video service authorization upon notice to the public service commission and the affected political subdivision.

Political subdivisions are prohibited from placing any additional requirements upon a person holding a video service authorization other than provided in the act. A person holding a video service authorization must comply with all Federal Communications Commission requirements regarding distribution and notification of emergency messages over the emergency alert system applicable to cable operators.

A video service authorization will terminate upon notice to the public service commission and affected political subdivisions, by the holder of the authorization, that such person will no longer provide service under the authorization.

Political subdivisions are allowed to collect a video service provider fee equal to not more than five percent of the gross revenue from each video service provider providing service in the political subdivision. The video service provider fee shall be the same for all video service providers providing service within the same franchise entity. Video service providers will pay the video service provider fee at the same rate assessed on incumbent cable providers immediately prior to the effective date of the act. Political subdivisions will be allowed to make necessary adjustments to the video service provider fee's rate once a year upon ninety days notice to the video service provider.

The video service provider fee must be paid to each political subdivision served on or before the last day of the month following the end of each calendar quarter. Video service providers may pass the tax and any support required for PEG programming on to customers, provided they are listed as a separate line items on subscriber bills.

Political subdivisions are provided audit authority over video service providers. Political subdivisions may audit video service providers providing service within their respective political subdivisions once per year with the cost of any such audit to be paid by such political subdivision. Law suits arising out of disputes relating to the amount of video service provider fees alleged to be due must be commenced within two years following the end of the quarter to which the disputed amount relates. Failure to file within the two year statute of limitations will result in the payments being deemed to have been made in full.

Political subdivisions are prohibited from employing anyone that is dependent upon the outcome of an audit conducted upon a person holding a video service authorization. Video service providers are not required to retain financial records associated with the payment of video service provider fees longer than

three years unless an action has commenced regarding such payment.

Upon ninety days notice, a political subdivision may require certain video service providers to adopt customer service requirements consistent with federal regulations. Video service providers must adopt informal processes for handling customer concerns. In the event an issue is not resolved, the act allows for confidential non-binding mediation with costs to be shared equally among the political subdivision and video service provider. In the case of repeated, willful, and material violations of the customer service standards provided in the act, a franchise entity may file a complaint with the administrative hearing commission on behalf of a aggrieved resident. The decision of the administrative hearing commission may be appealed in court of competent jurisdiction. Franchise entities are prohibited from filing a complaint seeking revocation unless sixty days notice was provided to the video service provider to cure alleged breaches.

The public service commission is required to make annual reports on developments resulting from this act for the next three years. Video service providers are required to indemnify political subdivisions from causes of action resulting from certain acts or omissions of the video service provider.

Video service authorizations are fully transferrable upon notice to the public service commission and affected political subdivisions. Political subdivisions may require up to three channels be designated by a video service provider for public, educational, or governmental (PEG) use dependent upon the population of the franchise entity. Incumbent cable operators will be subject to the provisions of the act regarding designation of channels for PEG use.

Designated PEG channels that are not substantially utilized may be terminated at the video service provider's discretion. Terminated PEG channels will be made available to political subdivisions within one hundred and twenty days of a determination being made by the governing body of such political subdivision that the channel will be substantially utilized. The expense of providing PEG channels shall be the sole responsibility of the political subdivision receiving the benefit of such channels. Political subdivisions must provide transmissions for PEG use in a compatible format for transmission by the video service provider without further alteration.

Video service providers will have the same obligations to support PEG access facilities as the incumbent cable operators. Video service providers are prohibited from discriminating with regard to provision of services based upon race or income. Within three years of providing video service, video service providers must provide at least twenty-five percent of its services to low income households, or within five years, thirty percent of its services must be provided to low income households.

Certain video service providers using telecommunication facilities to provide video service are required to provide service to at least twenty five percent of the households within their service area within three years of providing service under the video service authorization and not less than thirty percent within six years. A video service provider may satisfy the build-out requirements contained in the act through alternative technology if the service, functionality, and content is demonstrably similar to that provided through the provider's video service network. The public service commission may grant waivers or time extensions upon application by a video service provider.

A Political subdivision aggrieved by a video service providers failure to comply with the build-out requirements provided in the act may file suit in a court of competent jurisdiction. ARCHITECTS, ENGINEERS, LAND SURVEYORS, LANDSCAPE ARCHITECTS (Sections 327.011, 327.076, 327.077, 327.181, 327.441)

The act authorizes the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Landscape Architects to impose civil penalties against licensed and unlicensed persons. Any person who practices architecture, engineering, land surveying or landscape architecture without a valid license may be subject to an administrative action by the board to seek a civil penalty. The board may initiate investigations against the unlicensed person and may issue subpoenas to compel attendance and testimony of witnesses.

The complaint must be filed with the Administrative Hearing Commission, which shall conduct a hearing and issue its findings of fact and conclusions of law. The duties of the commission are amended to include the ability to hear such cases. If the commission finds the unlicensed person has violated this act, then the board may issue a civil penalty not to exceed \$5,000 for each day of violation, with a maximum penalty of \$25,000. The unlicensed person has the right to appeal the order imposing the fine to a circuit court. Once the case is final, and the penalty is not timely paid, the Attorney General may commence an action to recover the penalty, including reasonable attorney fees and costs and a surcharge of 15% of the penalty plus 10% per year on any amounts owed. The validity and appropriateness of the final order imposing the civil penalty shall not be subject to review.

An unlicensed person may use a form of the word "engineer" without being subject to disciplinary action if the use is reflective of that person's profession and does not imply that the person is holding himself or herself out as being a professional engineer.

CHIROPRACTORS (331.010)

The "practice of chiropractic" is redefined in reference to methods commonly taught in any chiropractic college or chiropractic program in a university accredited by the Council on Chiropractic Education.

BOARD OF REGISTRATION FOR THE HEALING ARTS (334.120)

Currently, 5 board members must be graduates of professional schools approved and accredited as reputable by the American Medical Association or the Liaison Committee on Medical Education. NURSES (335.016, 335.036, 335.066, 335.067, 335.068, 335.076, 335.096, 335.097, 383.130, 383.133)

The act defines "lapsed license status", "retired license status", and "temporary nursing staffing agency" and establishes notice and service requirements for disciplinary hearings before the full board.

The State Board of Nursing may establish an impaired nurse program and require nurses to enter treatment as a condition for licensure.

The State Board of Nursing may request an expedited hearing from the Administrative Hearing Commission, if the board concludes the nurse has committed an act constituting clear and present danger to the public health and safety. After 15 days from the complaint, and after a preliminary hearing, the board may immediately restrict or suspend the license. Temporary authority to restrict or suspend the license becomes final if the nurse does not request a full hearing within thirty days. Dismissal of the action does not preclude subsequent action on the same grounds.

Documentation relating to an unsubstantiated claim and those not constituting a violation are deemed sealed records under the act. Sealed records shall not be disclosed without written permission of the licensee. The board must notify the licensee if it seals any records in relation to that professional.

Advanced Practice Registered Nurses are authorized to use the acronym APRN in relation to their practices.

The act stipulates that reports made to the board are not in violation of the Federal Health Insurance Portability and Accountability Act.

Under current law, officials of hospitals and ambulatory surgical centers must report disciplinary actions taken against a licensed health care professional to their respective licensing authority. This act requires temporary nursing staffing agencies to do the same and requires the facts to be described with as much detail and information as possible.

BOARD OF NURSING (Section 335.212)

This act redefines the term "qualified employment" for the purposes of the nursing student loan program to include employment in any agency in an area of need, instead of restricting the definition to public or nonprofit agencies.

SCS/SB 339 - This act prohibits the state, or any agency or instrumentality of the state from requiring, or prohibiting, bidders from entering into agreements with labor organizations when entering into contracts for the construction of public projects funded by more than fifty percent by the state. Discrimination against bidders for such contracts based upon a bidder's affiliation with a labor organization is also prohibited. The state or any agency or instrumentality of the state may not issue grants or enter into cooperative agreements for construction projects, a condition of which requires any of the above elements.

The act provides conditions upon which the state or a political subdivision may enter into a union-only project labor agreement. The intent to enter into a union-only project labor agreement shall be published in a document titled "Intent to Enter Into a Project Labor Agreement". A public hearing must be conducted on whether to require a union-only project labor agreement. The finding is appealable to the Labor and Industrial Relations Commission.

The act bars contractors and subcontractors from receiving subsidies, supplements, or rebates if the practice reduces the wage rates paid by the employer on a given occupational title below the prevailing wage rate. Violators are liable to the public body double the dollar amount per hour that the rebate reduced the wage rate below the prevailing wage. If a subsidy, supplement, or rebate is legally provided the entity receiving the subsidy, supplement, or rebate shall report the date and amount of each. The disclosure report is a matter of public record.

The act repeals language requiring contractor's bonds to include provisions guaranteeing faithful performance of the prevailing wage clause provided by contract.

Currently, contractors in violation of the prevailing wage law are penalized \$10 per each workman employed during the violation. This act raises that penalty to \$100. The act provides a dispute process for prevailing wage violations and allows the employer to pay back wages for violations in order to avoid the monetary penalty for the violation.

The Director of the Department of Revenue shall be responsible for the collection, administration, enforcement, and operation of the tax. SB 433 - This act amends sections relating to the unemployment compensation scheme for war on terror veterans.

The act specifies that a war on terror veteran must be a Missouri resident immediately prior to deployment and must be a member of the Missouri national guard or a U.S. reservist.

In order to qualify for benefits, a Missouri court must have found that the veteran was discharged or laid off from non-military employment during deployment or within 30 days after completion of deployment.

The act specifies that the benefit computations are based on the five completed calendar quarters during which the veteran received wages immediately before deployment. Under current law the maximum benefit amounts were annually adjusted according to the consumer price index. This act removes this requirement.

The act increases the tax imposed upon delinquent and back tax statements for the collection of such taxes for Jackson County from two percent to three percent.

The act provides that the "coupling provision of section 94.660" (requires both the city and county to approve a transportation sales tax before a transportation sales tax can go into effect in either jurisdiction) shall not apply to any transportation sales tax approved by the voters in such city or such county on or after August 28, 2007.

MO HEALTHNET (MEDICAID) FRAUD - A person commits a "knowing" violation of sections prohibiting Medicaid fraud if he or she has actual knowledge of the information, acts in deliberate ignorance of the truth or falsity of the information, or acts in reckless disregard of the truth or falsity of the information, but provides that the use of the terms "knowing" or "knowingly" shall be construed to include the term "intentionally." This act also expands the definition of "health care provider" to include any employee, representative, or subcontractor of the state.

Current law provides that any person committing such a violation shall be guilty of a Class D felony upon a first conviction, and shall be guilty of a Class C felony upon subsequent convictions; this act provides that such person shall be guilty of a Class C felony upon a first conviction, and shall be guilty of a Class B felony upon subsequent convictions. Also, any person who has been convicted of such violations shall be referred to the federal Office of Inspector General.

Any person who is the original source of the information used by the attorney general to bring a Medicaid fraud action shall receive 10 percent of any recovery by the Attorney General unless he or she participated in the fraud or abuse.

The act also contains "whistle-blower" protections, providing that a person who is discharged, demoted, suspended, threatened, harassed, or in any way discriminated against in terms of employment due to a lawful act taken by the person in furtherance of an action for Medicaid fraud shall be entitled to reinstatement with the same seniority status, not less than two times the amount of back pay, interest on the back pay. However, such protections shall not apply if the court finds that the employee brought a frivolous or clearly vexatious claim, planned, initiated, or participated in the conduct upon which the action is brought, or is convicted of criminal conduct arising from Medicaid fraud violations.

The Attorney General's office and the Department of Social Services shall make a detailed report to the General Assembly and the Governor regarding implementation and administration of the provisions of this act, as provided therein. Additionally, a financial audit of the Medicaid fraud unit within the Attorney General's office and of the program integrity unit of the Department of Social Services shall be annually conducted by the State Auditor, to quantitatively determine the amount of money invested in such units and the amount of money actually recovered by them.

All Medicaid health care providers shall maintain adequate records regarding services provided, claims submitted, and payments requested, and shall maintain such records for at least five years after the date payment was received or for at least five years after the date on which the claim was submitted, if payment was not received. No person shall conceal or destroy such records before five years time, or he or she shall be guilty of a Class A misdemeanor.

Any person who intentionally files a false report or claim alleging a Medicaid fraud violation is guilty of a Class A misdemeanor and guilty of a Class D felony for any subsequent violations. In addition, it shall be a class D felony for any person to receive any compensation in exchange for knowingly failing to report any Medicaid fraud violations.

The commission will consist of ten members, five from the House and five from the Senate. Additionally, the directors of the Departments of Social Services, Health and Senior Services, and Mental Health shall serve as ex-officio members of the advisory working group.

This act also allows for the deposit of moneys recovered in a Medicaid fraud action to be used to increase Medicaid provider reimbursement until amount equals the average Medicare provider reimbursement for comparable services. Such funds shall be deposited for this purpose so long as there are any funds remaining after the appropriation of funds to the Attorney General for cost of investigation and prosecution and which have been appropriated to the Department of Social Services for administering the state medical assistance program. The asset limit for the new program is the same as that for the Medical Assistance – Permanently and Totally Disabled (MA-PTD) program, currently \$999.99 for a single person and \$2,000 for a couple with the standard exemptions. The available asset limit does not include medical savings accounts or independent living accounts. The individual must have a gross income of 300 percent or less of the federal poverty level. Individuals with gross income in excess of one hundred percent of the federal poverty level shall pay a specified monthly premium for participation. For income to qualify as earned income for the purposes of this program, the individual must demonstrate that Social Security and Medicare taxes are paid on the earnings.

poverty level for a family of three.

In addition, health insurance plans that do not cover an eligible child's pre-existing condition shall not be considered "affordable employer-sponsored health care insurance." (SECTION 208.640)

Under such a program, an individual may purchase a qualified long-term care partnership approved policy in accordance with the requirements of the Federal Deficit Reduction Act of 2005 to provide a mechanism for individuals to qualify for coverage of the cost of the individual's long-term care needs under Mo HealthNet without first being required to substantially exhaust his or her resources. Individuals seeking to qualify for MO HealthNet are permitted to retain assets equal to the dollar amount of qualified long-term care partnership insurance benefits received beyond the level of assets otherwise permitted to be retained under Mo HealthNet.

The Department of Insurance, Financial Institutions and Professional Registration may certify qualified state long-term care insurance partnership policies that meet the applicable provisions of the National Association of Insurance Commissioners (NAIC) Long-Term Care Insurance Model Act and Regulation as specified in the Federal Deficit Reduction Act of 2005. In addition, the department shall develop requirements regarding training for those who sell qualified long-term care partnership policies.

PROGRAM - The act revises the definition of "community-based organizations" to include any nonprofit corporations formed under Chapter 355 for which the department can approve to implement the Family Development Account Program. (SECTION 208.750)

HEALTH IMPROVEMENT PLANS - The Department of Social Services shall, with the advice and approval of the MO HealthNet Oversight Committee, create health improvement plans for all participants in MO HealthNet. Such health improvement plans shall include but not be limited to, risk-bearing coordinated care plans, administrative services organizations, and coordinated fee-for-service plans. The development of the plans and enrollment into such plans shall begin July 2008 and be completed by July 2011. The contracts for such plans shall require that the contracted per diem rate be reduced or other financial penalty occur if the quality targets are not met by the department. Every participant shall be enrolled in a health improvement plan and have a health care home.

The department is also required to use a public process for the design, development, and implementation of health improvement plans. The department shall establish a sliding scale schedule of co-payments for hospital emergency room visits.

All health improvement plans are required to help participants remain in the least restrictive level of care possible, use domestic call centers and nursing help lines, report participant and provider satisfaction information annually. Additionally, for purposes of a request for proposal for the health improvement plans, there shall be such requests in at least six regions in the state, however, in no case shall there be a single state-wide contract.

This act establishes the MO HealthNet Oversight Committee which will advise the department and study various aspects of the program including, but not limited to, satisfaction reports, pilot project results, and health risk assessment results. HCS#2/HB 28 -This act allows common household goods common carriers to file applications to the State Highways and Transportation Commission for approval of rates to reflect increases and decreases in the carrier's costs. The filing of the applications shall be governed by similar rules that govern rate adjustments requested by electrical gas or water companies. The applications shall be made in such form as the commission determines (Section 387.075).

The act also repeals the exemption that currently allows intrastate household goods movers to operate wholly in municipalities, between contiguous municipalities, or commercial zones without having to obtain MoDOT operating authority. Currently, household movers are exempt from the rules and regulations of Chapter 390, RSMo, if their operations are restricted to those described areas. The repeal of this exemption will start January 1, 2008 (Section 390.030).

The household good mover provisions are similar to the ones contained in SB 45 and SB 39 (2007).

SCS/HB 41 - This act modifies various provisions relating to law enforcement.

SECTION 43.030

Under this act, the Superintendent shall no longer be required to reside in Jefferson City. The Superintendent shall be appointed from the uniformed membership of the Patrol.

SECTION 43.050

The Superintendent may enter into an agreement with the Missouri Gaming Commission to enforce any law, rule, or regulation, conduct background investigations under the laws of this state, and enforce the regulations of licensed gaming activities. Members of the patrol hired in conjunction with such an agreement are not subject to the personnel cap. If such an agreement is terminated, the members shall not be subject to the personnel cap for five years, rather than three years. Currently, all members of the patrol hired in conjunction with the community-oriented policing services federal grant are not subject to the personnel cap. Under this act, only those member positions originally acquired in conjunction with the grant shall be exempt.

SECTION 43.090

The provision requiring the board of public buildings to provide offices for the Highway Patrol General Headquarters in Jefferson City is also repealed. This act modifies the staffing and administrative requirements that the Superintendent must meet at the general headquarters and troop headquarters.

SECTION 43.220

This act removes reference to the Missouri State Highways and Transportation Commission's power over the Patrol from statute.

SECTION 43.530

Currently, an entity making a request, as required by law, for criminal history record information that is not based on a fingerprint search must pay a fee of not more than \$5 per request. Entities making requests not required by law cannot be charged more than \$10. Under this act, an entity cannot be made to pay more than \$9 dollars for such a request regardless of whether required by law. However, after January 1, 2010, the Superintendent of the Highway Patrol may increase the fee by not more than \$1 per year. Under no circumstances shall the fee exceed \$15 dollars per request.

Currently, an entity making a request for criminal history record information that is based on a fingerprint search must pay a fee of not more than \$14 per request when such request is required by law. When not required by law, the entity may be charge not more than \$20 for such request. Under this act, an entity cannot be charged a fee of more than \$20 dollars for criminal history record information based on a fingerprint search, unless the request is required by the concealed carry endorsement statute or the foster home, residential care facility, or child placing agency licensing statutes, in which case, the fee shall be \$14.

SECTION 43.546

This act allows any state agency, board, or commission to require an applicant to provide fingerprints in specified occupations or appointments for the purposes of positive identification and receiving criminal history record information when determining the applicant's ability to serve in such an occupation or appointment.

In order to do so, the applicant or employee must submit a set of fingerprints. These fingerprints and

SPONSOR: Portwood

the accompanying fees are forwarded to the Highway Patrol to search the state criminal history repository and the FBI for a national criminal background check. All records related to any criminal history information discovered shall be accessible to the state agency making the request.

SECTION 43.547

This act requires the Highway Patrol, at the direction of the Governor, to conduct name or fingerprint background investigations of gubernatorial appointees. The Governor's directive shall state whether such background investigation shall be a name or fingerprint background investigation. If a fingerprint background investigation is ordered, the appointee must submit a set of fingerprints. These fingerprints and the accompanying fees are forwarded to the Highway Patrol to search the state criminal history repository and the FBI for a national criminal background check.

In addition to the name and fingerprint background investigations, the Highway Patrol may, at the Governor's direction, conduct other investigations to determine if an applicant or appointee has paid his or her required taxes and establish the person's suitability for positions of public trust.

The background investigations may include criminal history record information and other source information obtained by the Highway Patrol.

SECTIONS 84.120 & 84.170

This act allows the St. Louis Board of Police Commissioners to delegate portions of its jurisdiction to hearing officers. At the discretion of the board, a hearing officer may preside over disciplinary matters, prepare reports to the board, and make recommendations to the board as to the allegations made during a disciplinary matter and the appropriateness of the recommended discipline. This act outlines the process for selecting hearing officers. After a hearing officer is chosen and presides over a matter, such hearing officer shall become ineligible until all hearing officers listed have been utilized, at which time the list shall renew.

The St. Louis Board of Police Commissioners shall retain authority to render a final decision after a review of the evidence and reports of the hearing officer.

SECTION 86.365

This act repeals an obsolete provision which allows the police department of the City of St. Louis to hire certain retired police officers as special advisors.

SECTIONS 195.503 & 650.120

This act allows grant money received by multijurisdictional Internet cyber crime law enforcement task forces to be used to purchase necessary equipment, supplies, and services. Currently, the grant money received by such task forces may only be used to pay law enforcement salaries and to provide training.

Currently, multijurisdictional enforcement groups under Chapter 195, RSMo, are allowed to investigate computer, Internet-based, narcotics, and drug violations. This act changes the definition of such groups in Section 195.503, RSMo, to reflect this power. Under this act, multijurisdictional enforcement groups are allowed to received grant money to investigate internet sex crimes against children.

This act allows up to 3% of the money appropriated to the Department of Public Safety for the grant

program to be used for administrative costs.

The arrest power of peace officers authorized as a member of a multijurisdictional Internet cyber crime law enforcement task force shall only be used when the officer is an active member of such task force and within the scope of the investigation. The officers shall have the power of arrest anywhere in the state and shall provide prior notification to the local police chief or sheriff of an arrest in his or her jurisdiction. However, if exigent circumstances exist, such arrest may be made and notification shall be made to the police chief or sheriff as soon as possible. The police chief or sheriff may elect to work with task forces within his or her jurisdiction.

SECTION 590.040

Under this act, persons serving as a reserve officer on August 27, 2001, within a county of the first classification or St. Louis County, having previously completed a minimum of 160 hours of training, shall be granted a license necessary to function as a reserve peace officer within such county.

A patient or patient's representative and the patient's attending physician may execute an outside the hospital do-not-resuscitate order and a copy of the order shall be included as the first page of a patient's medical record. The Department of Health and Senior Services must develop and approve uniform forms and personal identifiers. The outside the hospital do-not-resuscitate order will only be effective when the patient has not been admitted to or is not being treated within a hospital.

The outside the hospital do-not-resuscitate orders and protocols will not authorize the withholding or withdrawal of other medical interventions such as intravenous fluids, oxygen, or therapies other than cardiopulmonary resuscitation. Such an order will not be effective when a patient is pregnant or when it is believed in good faith that a patient is pregnant. Emergency medical technicians, paramedics, first responders, and other health care providers are required to comply with an outside the hospital do-not-resuscitate order or identifier unless the patient or patient's representative expresses to the personnel in any manner, before or after the onset of a cardiac or respiratory arrest, the desire to be resuscitated. This act allows the City of Sullivan and the portion of the Sullivan C-2 School District located in Franklin County to levy a transient guest tax on charges for sleeping rooms paid by guests of hotels, motels, bed and breakfast inns and campgrounds or docking facilities. HCS/HB 221 - The act modifies the laws regarding motor vehicle service contracts and product service agreements.

The act repeals the existing provisions relating to motor vehicle extended service contracts found in Chapter 407, RSMo, and transplants the provisions into Chapter 385, RSMo. With respect to motor vehicle extended service contracts, the act defines the term "fronting company" as a dealer that authorizes a third-party administrator or provider to use its name or business to evade or circumvent a sale, an offer for sale, or a solicitation of a sale of a service contract to a consumer. The act further prohibits an unlicensed motor vehicle or boat dealer from selling a motor vehicle service contract to a consumer and prohibits a dealer from acting as a fronting company.

The act further creates similar provisions for service contracts, to wit, the act prohibits persons from issuing or selling service contracts without registering and paying applicable fees to the Department of Insurance; sets forth financial reserve requirements for service contract providers; and requires providers to furnish written statements to consumers outlining their obligations, conveying terms and restrictions. The act requires service contract providers to maintain accurate records of every transaction for a period of at least three years after the specified period of coverage has expired. Records must be made available to the department upon request.

These provisions are similar to those contained in SCS/SB 197 (2007), SS/SCS/SB 895, SB 991 and HB 1626 (2006).

SCS/HCS/HB 298 - This act creates the Missouri Blasting Safety Act.

The act requires individuals who use explosives to have a blaster's license or be supervised by a person with a blaster's license, with exceptions as listed. The act directs the Division of Fire Safety to create a blaster's licensing program. The act lays out qualifications for license applicants, which include completing an approved blaster's training course and passing a licensing examination. Licenses are valid for three years and may be renewed upon the applicant meeting renewal requirements as specified in the act. Blaster's licenses shall be required within 180 days of the division promulgating licensing rules.

The division may suspend or revoke a license in circumstances as described in the act. In such a case, the division shall provide written notice to the individual in question and that individual must surrender all copies of the license to the division as well as cease all blasting activity. The decision to suspend or revoke a license may be appealed by the individual to the state blasting safety board. Any decision by the board shall be made within thirty days of the date the appeal is received by the board.

License reciprocity is available to individuals holding a valid license or certification from another source within the last three years provided all requirements meet or exceed the provisions laid out in this act. A license may also be granted to anyone employed as a blaster on or before December 31, 2000, and who has accumulated one thousand hours of training or education and experience.

The act specifies additional requirements for blasting activities within a scaled value of 55 (a measurement taking into account distance and the weight of the explosives being used) of an "uncontrolled structure," defined as any dwelling, public building, school, church, commercial building, or institutional building not owned or leased by the blaster. Blasting within this range requires the use of a seismograph, and must comply with federal ground vibration limits (or approved alternate method) and acoustic limits as described in the act.

People intending to use explosives must register with the Division of Fire Safety prior to first use. Those required to register must file an annual report and pay a fee based on the number of pounds of explosives used during the year. There is a minimum fee of \$500 in addition to a fee per ton of explosives used during the year not to exceed \$2 per ton.

The act creates the State Blasting Safety Board. Composed of seven members appointed by the Governor, members shall represent the following areas of interest: municipal or county director of public works; surface mining operations subject to these provisions; construction operations subject to these provisions; contract blast monitoring service provider; explosives manufacturer or distributor; and the State Fire Marshal. The board will advise the Division of Fire Safety on administering and enforcing the act's provisions and hold hearings on appeals and notices of violations.

The act creates the Missouri Explosives Safety Act Administration Fund. The State Fire Marshal shall submit a report to the State Blasting Safety Board annually detailing the revenue in the fund generated by fees, and how that revenue was spent.

Notices of violations and how they shall be issued are detailed in the act. Any person receiving such a notice has the opportunity to request a hearing before the state blasting safety board. Decisions by the board may be appealed to the Administrative Hearing Commission.

The act creates several notification requirements for blasting. Blasters must notify the Division of

Fire Safety at least two business days prior to blasting at a new site. Blasters must notify a local fire protection official. Blasting within the jurisdiction of a municipality requires notification of the municipality at least two business days in advance. Owners or occupants of residences or businesses in a municipality located within a scaled value of 55 of the blasting must be notified.

Except for ordinances in St. Louis County, the provisions of this act preempt existing local laws regarding blasting activities although it allows municipalities to regulate blasting within their jurisdictions provided they do not amend, exceed or conflict with any of the provisions of this act. An exception is also granted for laws in effect as of January 1, 2007 in St. Charles County that pertain to blasting at quarries.

Individuals in violation of any of the act's provisions may be subject to a civil penalty of up to \$2,000 for a first violation and up to \$5,000 for a second or subsequent violation except that anyone blasting without a license shall be guilty of a Class B misdemeanor for a first offense and a Class A misdemeanor for a second offense. Anyone convicted of a class A misdemeanor related to this act shall be permanently banned from obtaining a blaster's license.

DISTRESSED AREAS LAND ASSEMBLAGE TAX CREDIT PROGRAM

This act creates the distressed areas land assemblage tax credit program, administered by the department of economic development. Tax credits issued under the distressed area land assemblage tax credit act, are non-refundable, fully transferrable income, corporate franchise, and financial institutions, tax credits. Tax credits issued under the act will be equal to fifty percent of the acquisition costs for the land, and one hundred percent of the interest costs. The tax credit program is capped at one hundred million dollars and the total amount of tax credits issued annually is limited to twelve million dollars. The authorization of land assemblage tax credits after August 28, 2013, is prohibited, but land assemblage tax credits authorized on or before August 28, 2013, but not yet issued, may be issued until all such credits have been issued.

SECTIONS 135.535 & 135.562

The act enables a taxpayer making less than \$30,000 per year who modifies their home to be accessible to a disabled person who resides with the taxpayer to claim a credit against their income tax for one hundred percent of the costs of modification, up to \$2,500. For taxpayers making between \$30,000 and \$60,000, a credit will be allowed in the amount equal to fifty percent of the costs of modification, up to \$2,500. All tax credits will be refundable, up to \$2,500 per year. The credits are not transferrable. The credit has a statewide maximum of \$100,000 per year. If ten million dollars in tax credits are not approved, for programs authorized under the rebuilding communities tax credit program, then up to the first one hundred thousand dollars in tax credits shall be used for the home modification tax Credit created by this act.

A taxpayer is ineligible to be issued tax credits for such modifications two years in a row. The tax credit amount will be offset by a sufficient amount to account for a taxpayer's use of such modification as a deduction from federal adjusted gross income or any other state or federal income tax credits.

The credit applies to tax years beginning January 1, 2008, and expires December 31, 2013.

The modifications to these sections are similar to Senate Bill 877 (2006).

NEW MARKETS TAX CREDIT PROGRAM

This act provides an income tax credit in an amount equal to the applicable percentage of the adjusted purchase price paid to the issuer of a qualified equity investment. The amount of investments in any one qualified low-income community business which may be used for calculating the amount of tax credits is limited to ten million for such business including investments in any affiliates of such business. The applicable percentage is zero percent for each of the first two credit allowance dates and seven percent for the third credit allowance date and eight percent for the next four credit allowance dates. The tax credit is non-refundable and non-transferrable, but tax credits earned by "pass - through entities" may be allocated to the partners, members, or shareholders of the entity for their direct use. To the extent that the tax credits issued exceed a taxpayer's liability, the remaining tax credits may be carried forward to the taxpayer's five subsequent tax years. The Department of Economic Development must limit the amount of investments to a level necessary to limit tax credit utilization to no more than fifteen million dollars per fiscal year without regard to the potential for taxpayers carrying forward credits to later years. contains provisions allowing the Department of Economic Development to recapture tax credits issued under the act in certain situations.

This section contains a sunset provision and a reauthorization procedure for fiscal years following fiscal year 2010. For fiscal years following fiscal year 2010, annual reauthorization must be made in the form of a concurrent resolution clearly describing the amount of tax credits which will be made available for the next fiscal year, unless provisions of the Missouri Sunset act require reauthorization by general law. The sunset date and annual reauthorization requirement shall not preclude a taxpayer who makes a qualified equity investment prior to the such date from claiming credits issued under the act.

FILM PRODUCTION TAX CREDIT PROGRAM

The act modifies provisions of the film production tax credit program by lowering the minimum expected in-state budget expenditure, from \$300,000 to \$50,000 for qualified film production projects less than thirty minutes in length or to \$100,000 for a project longer than thirty minutes, for tax years beginning on or after January 1, 2008. The act removes the limitation on the amount of tax credits which may be issued annually per taxpayer for all tax years beginning on or after December 31, 2007. The annual aggregate cap on all tax credits certified under the program is increased from one million five hundred thousand dollars to ten million dollars. The amount of the tax credit is reduced, beginning January 1, 2008, from fifty percent to thirty-five percent of the amount of qualifying expenses.

The provisions of this section will automatically sunset in six years if not re-authorized.

This section is similar to House Bill 360 (2007).

ENHANCED ENTERPRISE ZONE PROGRAM

The act:

- (1) Increases the cap on the amount of tax credits that can be issued in a calendar year for the program from seven million dollars per year to twenty-five million dollars per year;
- (2) Modifies the definition of an "employee" to a person employed by the enhanced business enterprise that is scheduled to work an average of at least 1,000 hours per year. Health insurance must be offered to employees at all times and must be partially paid by the employer. Currently, the definition of an "employee" includes full-time, part-time, and seasonal employees;
- (3) Adds educational services, religious organizations, and public administration to the list of entities which are prohibited from being enhanced business enterprises. However, headquarters or administrative offices which would otherwise be excluded may qualify for benefits if the offices serve a multi-state territory. Currently, utilities regulated by the Missouri Public Service Commission are excluded from being an enhanced business enterprise. The act changes this to public utilities with a NAICS code 221, including water and sewer services;
- (4) Allows speculative industrial or warehouse buildings constructed by a public entity, or a private entity if the land is leased by a public entity, to be exempt from ad valorem taxes, upon the approval of the governing authority. If the speculative building is owned by a private entity, the exemption cannot exceed two years. If it is owned or leased by a public entity, the exemption cannot exceed five years. Currently, only enhanced business enterprises can be exempt from these taxes; and
- (5) Requires the department to verify through the Department of Revenue that the tax credit applicant does not owe any delinquent taxes, interest, or penalties and to verify through the Department of Insurance, Financial Institutions, and Professional Registration that the applicant does not owe any delinquent insurance taxes prior to issuing any tax credits. The amount of tax credits issued will be reduced by any tax delinquency.

(12) Allows qualified companies to retain withholding taxes once the minimum number of new jobs has been attained and the county average wage has been exceeded. A qualified company will not receive tax credits if in its annual report, the average wage is below the county average wage, the company has not maintained the required employee insurance, or if the number of new jobs is below the minimum;

(13) Creates a new tax credit within the program for small business job retention and flood survivors relief. The amount of the tax credit will be equal to the amount of withholding tax generated by the full-time jobs retained over a period of three years. The calendar year maximum amount of tax credits which may be issued for small business retention and flood survivor relief is two hundred and fifty thousand dollars, but such amount may be increased up to five hundred thousand dollars if proposed by the department of economic development. No tax credits for small business job retention and flood survivor relief may be issued after August 30, 2010. A qualified company is prohibited from receiving benefits under the job retention and flood survivor relief provisions of the Missouri Quality Jobs Act if such company received any state or federal benefits, incentives, or tax relief or abatement in locating its facility in a flood plain;

(14) Requires the department of economic development to give preference, in providing benefits under the quality jobs act, to qualified companies and projects targeted at areas of the state which have recently been classified as disaster areas by the federal government;

(15) Requires the department to verify through the Department of Revenue that the tax credit applicant does not owe any delinquent taxes, interest, or penalties and to verify through the Department of Insurance, Financial Institutions, and Professional Registration that the applicant does not owe any delinquent insurance taxes prior to issuing any tax credits. The amount of tax credits issued will be reduced by any tax delinquency;

(16) Allows qualified companies to receive tax credits for providing tuition reimbursement programs to certain employees. The tax credit is a non-refundable, fully transferrable income tax credit. To the extent that a taxpayer's Missouri income tax liability is exceeded by the amount of tax credits issued in a tax year for tuition reimbursement, the remaining tax credits may be carried forward five years until completely claimed.

The tuition reimbursement tax credit is an income tax credit equal to fifty percent of expenses incurred by a qualified company in providing tuition reimbursement to eligible employees, not to exceed five thousand dollars per eligible employee per year. The act prohibits a qualified company from receiving more than twenty-five thousand dollars in tuition reimbursement tax credits in any one tax year. The total number of tuition reimbursement tax credits issued annually shall not exceed two hundred and fifty thousand dollars; and

(17) Requires qualified companies which receive benefits under the Missouri quality jobs act, which knowingly hire unauthorized workers to forfeit such benefits and repay the state the amount of state tax credits redeemed or withholding taxes retained.

authorizing tax credit programs within chapters 32, 100, 135, 143, 173, 208, 348 & 620 RSMo, so as to include charitable organizations which are exempt from federal income tax. The act further amends the tax credit provisions contained in such chapters so as to allow for the full transferability of the tax credits authorized therein.

The act expands the state and local sales tax exemption for tangible personal property purchased for use or consumption in research and development of prescription pharmaceuticals to include utilities as well as tangible personal property used or consumed in such process as well as in the research and development of agricultural, biotechnology and plant genomics products.

The act modifies the tax credit for modifying a home for a disabled person such that a taxpayer is ineligible to be issued tax credits for such modifications two years in a row. The tax credit amount will be offset by a sufficient amount to account for a taxpayer's use of such modification as a deduction from federal adjusted gross income or any other state or federal income tax credits.

The act requires the Director of the Department of Revenue to calculate the levels of appropriation necessary to set the homestead exemption limit anywhere between one hundredth of one percent and five percent for reassessment years and one hundredth of one percent and two and a half percent for non-reassessment years. In doing so, the General Assembly could appropriate sufficient funds to offset any increase in property tax liability experienced by eligible taxpayers in a given year.

The act creates an income tax credit for the costs of constructing a qualified alternative fuel vehicle refueling property. The tax credit shall not exceed the lesser of twenty thousand dollars or twenty percent of the costs directly associated with the purchase and installation of any alternative fuel storage and dispensing equipment. The cumulative amount of credits which may be claimed shall not exceed three million dollars for taxable year 2008. For taxable year 2009, the cumulative amount of tax credits which may be claimed is reduced to two million dollars, and for taxable year 2010, the amount is further reduced to one million dollars. The tax credit is non-refundable, but may be carried forward for two subsequent tax years. The tax credit is fully transferable. The act contains a recapture provision for refueling properties which cease sales of alternative fuel. The provisions of the tax credit program creating the tax credit program will automatically expire six years from the effective date of the act if not re-authorized.

The act creates an income tax deduction for tax year 2008, for a taxpayer's purchase of qualified hybrid vehicles. The deduction will equal the lesser of one thousand five hundred dollars or ten percent of the purchase price of the vehicle. The tax deduction must be taken in the year in which the purchase is made.

The act creates a tax credit for the purchase of e-85 gasoline or biodiesel or biodiesel-blended fuel. The tax credit will be equal to: twenty five cents per gallon of e-85 or five cents per gallon of biodiesel or biodiesel-blended fuel for 2008; twenty cents per gallon of e-85 or three cents per gallon of biodiesel or biodiesel-blended fuel for 2009 and 2010; and fifteen cents per gallon of e-85 or five cents per gallon of biodiesel or biodiesel-blended fuel for 2011 and each subsequent year. The tax credit must be for at least fifty dollars, but may not exceed five hundred dollars per taxpayer per year. The aggregate amount of tax credits which may be redeemed by all taxpayers in any given year shall not exceed five hundred thousand dollars. The tax credit is non-refundable, but may be carried forward three years. The provisions allowing for the tax credit for purchases e-85 gasoline and biodiesel or biodiesel-blended fuel will sunset six years from the effective date of the amendment unless re-authorized.

The act also creates a state sales tax exemption for fiscal year 2008, for purchases of automobiles designed to operate on eighty-five percent ethanol fuel. The act creates a state and local sales tax exemption for sales of new diesel-powered motor vehicles with a gross vehicle rating not exceeding eight thousand five hundred pounds.

Under current law, in order for a manufacturer to receive an exemption from sales tax for electrical energy used in the primary manufacture of a product, the manufacturer must prove that the total cost of electricity used exceeds ten percent of the total cost of production or that the raw materials used in the primary manufacture of a product contain at least twenty-five percent recovered materials. This act creates a rebuttable presumption that the raw materials used in the primary manufacture of automobiles contain at least twenty-five percent recovered materials.

The act creates the hunting heritage protection areas act. Subject to all applicable state and federal laws, the discharge of firearms for hunting, sport, and other lawful purposes shall not be prohibited in hunting heritage protection areas, which are defined as the 100-year floodplains of the Missouri and the Mississippi rivers as designated by the federal emergency management agency.

Certain areas are exempt from the act, which are: areas designated as "urbanized areas" according to the 2000 U.S. census; land used by facilities that are regulated by the federal energy regulatory commission; land used for the operation of physical ports of commerce and customs ports; land within Kansas City and St. Louis City; and land located within 1/2 mile of an interstate highway, as such highway exists as of August 28, 2007.

No new tax increment financing (TIF) project may be authorized in a hunting heritage protection area after August 28, 2007, except for the purposes of improving existing flood or drainage protection or for constructing or operating a renewable fuel production facility, provided that no new development results as a result of the projects. TIF projects or districts approved prior to the effective date of this act may make certain modifications.

The act exempts purchases of aviation jet fuel for transoceanic flights from state sales and use taxes. For purposes of calculating the existing sales tax exemption for aviation fuel purchased by common carriers or affiliate carriers, the amount of tax that would be owed, if not for the exemption created by this amendment, for purchases of aviation jet fuel on transoceanic flights may be used in arriving at the 1.5 million dollar maximum aggregate calendar year amount of state sales and use tax.

The act establishes the "Regional Railroad Authorities Act." The purpose of an authority established and operated under the act is to provide for the preservation, improvement, and the continuation of rail service for agriculture, industry, or passenger traffic and to provide for the preservation of railroad right-of-way for transportation uses, when determined to be practicable and necessary for the public welfare.

Under the act, every municipality or county within this state is authorized to form a regional railroad authority. A regional railroad authority may be organized by resolution or joint resolution adopted by the governing body or bodies of one or more counties. The governing body or bodies of a municipality or municipalities within a county or counties may request by resolution that the county or counties organize a railroad authority. If the county or counties do not organize an authority within ninety days of receipt of the request, the municipality or municipalities may organize an authority by resolution or joint resolution.

SPONSOR: Richard

HANDLER: Griesheimer

Before final adoption of an organization resolution, the governing body of each county or municipality named in it shall provide for a public hearing upon notice published in a newspaper of general circulation in the county or municipality. Upon the appointment and qualification of the commissioners first appointed to a regional railroad authority, the commissioners shall submit to the secretary of state a certified copy of each resolution adopted. The Secretary of State shall issue a certificate of incorporation if the resolution conforms to the requirements of this act.

All powers granted to an authority shall be exercised by its board of commissioners. Commissioners shall be appointed and vacancies in their office shall be filled by the governing body of each county or municipality named in the organization resolution, in accordance with the provisions of that resolution. The term of each commissioner shall be one year, or the remainder of the one year term for which a vacancy is filled, and until a successor is appointed. Commissioners shall receive no compensation for services but shall be reimbursed for necessary expenses incurred in the performance of their duties.

The authority may plan, establish, acquire, develop, construct, purchase, enlarge, extend, improve, maintain, equip, operate, regulate, and protect railroads, railroad properties and railroad facilities within its boundaries, including but not limited to terminal buildings, roadways, crossings, bridges, causeways, tunnels, equipment, and rolling stock.

The authority may exercise the power of eminent domain under Chapter 523, RSMo.

The state of Missouri and any political subdivision may transfer to any regional railroad authority or may place in its possession or control, by lease or other contract or agreement, either for a limited period or in fee, any property within a regional railroad authority district or any property wherever situated. The authority may establish charges and rentals for the use, sale, and availability of its property and service and may hold, use, dispose of, invest, and reinvest the income, revenues, and funds derived therefrom.

Every regional railroad authority, organized under the provisions of the act may issue its negotiable revenue bonds or notes in such principal amounts as, in its opinion, shall be necessary to provide sufficient funds for achieving its purposes, including the construction, establishment, acquisition, improvement, maintenance, protection and regulation of railroads and railroad facilities. The state shall not be liable on any notes or bonds of any regional railroad authority. No authority shall be required to pay any taxes or any assessments whatsoever to this state or to any political subdivisions, municipality or other governmental agency of this state. The notes and bonds of every authority and the income therefrom shall, at all times, be exempt from any taxes and any assessments, except for death and gift taxes and taxes on transfers.

The authority may enter into contracts including leases with any person, firm, or corporation, for terms the authority may determine:

- (1) Providing for the operation of any facilities on behalf of the authority, at the rate of compensation as may be determined;
- (2) Leasing a rail line for operation by the lessee or any facility or space therein for other commercial purposes, at rentals as may be determined, but no person may be authorized to operate a rail line other than as a common carrier;
- (3) Granting the privilege, for compensation as the authority shall determine, of supplying goods, commodities, services, or facilities along rail lines or in or upon other property; and
- (4) Making available services furnished by the authority or its agents, at charges, rentals, or fees

SPONSOR: Richard

which shall be reasonable and uniform for the same class of privilege or service.

The act provides a method for dissolving the authority. If the governing body of any city or county that organized a regional railroad authority, votes to dissolve a regional railroad authority, it shall be dissolved effective the date of the approval of dissolution by the Highways and Transportation Commission. In the event of dissolution of a regional railroad authority, all funds and other assets shall be distributed among the cities and counties, who were members, on a pro rata basis.

The act establishes the small business and entrepreneurial growth act for small business employers who expand their business by increasing the number of jobs and meeting certain qualifications. Beginning January 1, 2008, a qualified employer can retain the Missouri withholding tax from the salaries of the newly created jobs for one year; or if the employer pays more than 50% of the cost of the premiums for health insurance for all employees, the withholding tax can be retained for two years.

The act modifies several provisions of law relating to transportation development districts. The act modifies the definition of "qualified electors" to mean residents within a proposed district registered to vote and property owners who shall receive one vote per acre. The definition provides that any registered voter who is also a property owner must choose to vote as an owner or a registered voter. The act makes a technical change to what a transportation development petition must contain. The law currently provides that the petition must contain a proposal for funding a district, with a request that the funding proposal be submitted to the qualified voters residing in the proposed district. The act requires the TDD petition to set forth the estimated project costs and the anticipated revenues to be collected from the project. This amendment removes the word "residing" since that term is inconsistent with the portion of the TDD law that allows districts to be formed where there are no residents in the proposed district. The act provides for the de-annexation of property from a transportation development district but only with the unanimous consent of the property owners and the removal of such property will not materially affect the obligations of the district. The act modifies the process for submitting TDD plans to the state highways and transportation commission. The act provides for preliminary approval of a project by the commission. After such preliminary approval, the district may impose taxes and assessments. The act provides for the speedier transfer of a TDD project to the commission or local transportation authority provided the recipient consents.

The act requires municipalities, which are counties under the authority of the East-West Gateway Council of Governments, except for Franklin County, which desire to implement a tax increment financing project, to create a commission in the same manner as a first class county with a charter form of government having a population greater than nine hundred thousand. Such commission shall have twelve members with two members appointed by the school boards, one member to represent all other taxing jurisdictions, three members appointed by the county, and six members appointed by the cities in the county with tax increment financing districts.

This act requires cities, towns and villages, under the authority of the East-West Gateway Council of Governments, to receive prior approval of the county in which such city, town or village is located in order to implement a tax increment financing project.

The act prohibits tax increment finance projects in Greenfield areas located in municipalities under the authority of the east-west gateway council of governments. The act requires a two-thirds majority vote by the governing body of a municipality desiring to approve a tax increment finance project if the tax increment finance commission makes a recommendation in opposition.

The act makes tax credits issued for contributions to maternity homes fully transferrable.

The act creates an income tax credit in an amount equal to fifty percent of a contribution made by a taxpayer to an eligible organization for the preservation of Missouri's civil war sites. The tax credit is non-refundable, but may be carried forward five years until fully claimed. The tax credit is fully transferrable. The tax credit has an aggregate annual cap of one hundred thousand dollars and a per taxpayer annual cap of twenty five thousand dollars.

To the extent that tax credits remain unissued for the neighborhood assistance program, the first one hundred thousand dollars of such remaining tax credits shall be made available for issuance based upon contributions made to eligible organizations for the preservation of Missouri's civil war sites. The department of economic development shall certify organizations which qualify under the program. Upon certification, the department of economic development must notify the department of revenue as to an organization's certification status.

The act establishes the workforce investment board and repeals the Missouri Training and Employment Council Act including the Missouri training and employment council.

The act modifies the family development account program definition of community based organization to include any nonprofit corporation formed under chapter 355 RSMo, and decreases the amount of funds in the reserve account which may be used for administrative costs from twenty percent to fifteen percent.

The act modifies provisions of the small business investment tax credit as follows:

(1) Reduces the amount of the tax credit for a qualified investment in a small business from 40% to 30% of the investment, unless the small business is located in a distressed community, in which case the tax credit is reduced from 60% to 40%. A tax credit equal to 40% of an investment made in a small business located in a rural area is allowed. Tax credits will only be issued on investments up to \$100,000;

(2) Removes the 50% tax credit for investment in a community bank or community development corporation;

(3) Requires that \$10 million in tax credits be available each fiscal year for qualified investments in small businesses, regardless of the location of the business. Currently, the total amount of tax credits available for qualified investments in Missouri small businesses cannot exceed \$13 million with \$4 million reserved for distressed communities;

(4) Removes the requirement that \$500,000 be available for tax credits for qualified investments in Missouri small businesses, community banks, or community development corporations from the neighborhood assistance program; and

(5) Prohibits the Department of Economic Development from issuing certificates without the approval of the small business tax credit review committee, which must review and determine the eligibility of all tax credit applications.

The act creates a non-refundable income and corporate franchise tax credit for sales of qualifying beef animals based upon such animal's weight at the time of first sale. The tax credit shall be equal to ten cents per pound above four hundred fifty pounds for the first sale, and ten cents per pound above the weight of the qualifying beef animal at the time of the first qualifying sale or four hundred fifty pounds, which ever is greater, for a subsequent sale. A qualifying beef animal must be certified by the agriculture and small business development authority and be born in this state after August 28, 2008, and raised or finished in this state.

The tax credit must be claimed in the year in which the qualifying sale is made. Qualifying beef tax credits are fully transferrable by notarized endorsement. To the extent the amount of tax credits for qualifying beef sales exceeds a taxpayer's corporate franchise or income tax liability, such remainder may be carried forward five years or back three years. The tax credit has an annual cap of ten million dollars and the cumulative amount of tax credits which may be issued under the amendment is limited to thirty million dollars.

In order to claim the tax credit authorized under the act, a taxpayer must submit an application to the agriculture and small business development authority at the end of each calendar year. If the taxpayer and qualified sale meet all of the requirements, the authority will then issue a tax credit certificate. All taxpayer information required in the application will be confidential, and may only be shared with state and federal animal health officials.

SS/SCS/HCS/HB 583 - This act modifies various provisions relating to crime victims.

SECTION 191.225

Under this section, the Department of Health and Senior Services shall make payments to medical providers to cover the charges of forensic examinations for victims of sexual offenses under certain circumstances. Current law requires the department to pay hospitals and physicians for the costs of medical exams that are not covered by insurance, Medicare, or Medicaid for certain victims of sexual offenses. The appropriate medical provider shall file the report of the exam with the prosecuting attorney within three business days of its completion.

The attorney general shall develop the forms and procedures for gathering evidence during forensic exams. Rather than the attorney general furnishing hospitals with copies of such forms, the department of Health and Senior Services shall develop a checklist for medical providers to refer to while providing treatment to victims.

The Highway Patrol, or its designees, is required to develop evidentiary collection kits and, subject to appropriation, make them available to medical providers. The medical providers shall use the kits to perform a forensic exam following the department's checklist. No medical provider shall charge such a victim for the forensic exam; however, if a victim is eligible for relief from the crime victims' compensation fund, the provider may seek compensation from the fund money.

SECTION 217.692

Certain offenders who have pleaded guilty to or been found guilty of homicide of a spouse or domestic partner and are serving a life sentence without the possibility of parole for at least fifty years shall be eligible for parole after having served fifteen years if the board of probation and parole determines that there is a strong probability that the person will not violate the law again. In order to be eligible, the offender must have pled guilty or began his or her trial prior to December 31, 1990. The offender must have no prior violent felony convictions, no longer have a cognizable legal claim and have a history of being a victim of continual and substantial physical or sexual domestic violence that was not presented as an affirmative defense at trial or sentencing and is corroborated with evidence of facts or circumstances which existed at the time of the alleged violence.

When making its decision, the board shall consider certain criteria. A person commits perjury as a class C felony for knowingly making false witness statements to the board.

In cases where witness statements are conflicting as to whether such domestic violence occurred or was substantial and continual in nature, the history shall be established by other corroborative evidence in addition to witness statements. A contradictory statement of the victim shall not be deemed to be a conflicting statement.

SECTION 431.056

This section provides that persons age 16 or 17 who are homeless, self-supporting, and whose parents have given implied or express consent, may enter into a contract to receive services as a victim of domestic and sexual violence, in addition to being able to enter other contracts for admission to a shelter, housing, employment, purchase of a vehicle, receipt of student loans, admission to school, obtaining medical care, and establishing a bank account.

SECTION 455.003

SPONSOR: Johnson

HANDLER: Gibbons

This section requires employees or volunteers of a rape crisis center to maintain confidentiality of information that would identify individuals served by the center and any information directly related to the advocacy services. Also, prior to providing advocacy services, the center shall inform individuals of the nature and scope of the confidentiality requirements.

An employee or volunteer of a rape crisis center shall be incompetent to testify concerning any confidential information unless the confidentiality requirements are waived by the individual served.

SECTION 455.038

Under this section, if a person who has petitioned for an ex parte order of protection has opted to register a phone number with the victim notification system, then the circuit clerk is required to notify the petitioner by phone when the order has been served or if no more attempts to serve are planned. The local law enforcement agency shall notify the circuit clerk when no more service attempts are planned by that agency. The provisions of the act shall only apply to those circuit clerks able to access a statewide victim notification designed to provide notification of service of orders of protection.

SECTION 537.047

This section creates a civil cause of action for victims of child pornography offenses who suffer physical or psychological injury or illness as a result of the violation.

SECTION 565.072

Under this section, a person who commits domestic assault in the first degree shall be guilty of a Class A felony, rather than a class B felony, if he or she has previously pleaded guilty to or been found guilty of committing such crime. Currently, this crime is only a Class A felony if the person inflicts serious physical injury on the victim.

SECTION 566.224

No prosecuting attorney, peace officer, governmental official, or employee of a law enforcement agency shall request or require a victim of sexual assault or forcible rape to submit to a polygraph test or psychological stress evaluator exam as a condition upon proceeding with a criminal investigation of such crime.

SECTION 566.226

This section requires identifying information of sexual assault, domestic violence, stalking, or forcible rape victims to be closed and redacted from any court record, whether written or published on the Internet, before being disclosed to the public. Identifying information shall include the name, home or temporary address, social security number, and physical characteristics of the victim. If the court determines that the person or entity requesting identifying information has a legitimate interest in obtaining such information, the court may allow access to such information, but only if it determines that disclosure would not compromise the welfare or safety of the victim.

SECTIONS 589.660 to 589.683

These sections create in the Secretary of State's Office the "Address Confidentiality Program" for victims of domestic violence, rape, sexual assault, and stalking. The program authorizes the use of designated addresses for such victims and their minor children. The Secretary of State shall promulgate rules to implement and administer this program.

An adult, parent of a minor, or guardian of an incapacitated person may apply to the Secretary of

State to have a designated address assigned. The Secretary may only approve applications filed properly with the office as established by rule. The application shall contain certain information, including the person's mailing address, the applicant's signature, and a designation of the Secretary as agent for the purpose of service of process and receipt of first-class mail, legal documents, and certified mail. The applicant must supply a sworn statement that he or she is a victim of violence and fears further violent acts from his or her assailant. The applicant must also supply addresses that he or she does not want disclosed because it will jeopardize the applicant's safety.

Upon receiving a properly completed application, the Secretary may certify the applicant as a program participant for four years and forward his or her first-class mail, legal documents, and certified mail. Notification of lapsing certification and a reapplication form shall be sent to the program participant at least four weeks prior to expiration.

The Secretary of State may cancel, with limited exceptions, the certification of a program participant if:

- 1) The participant obtains a name change;
- 2) There is a change in the mailing address from the person listed on the application and another address is not provided; or
- 3) The applicant or participant provides false information or makes false claims in the application or assists another person in doing so.

State and local agencies and the courts shall accept the designated address as a program participant's address when creating new public records unless statute requires otherwise.

The Secretary may make a program participant's address or mailing address available if requested by law enforcement or the director of a state agency if he or she shows a statutory or administrative requirement for the use of such addresses. If deemed appropriate, the Secretary shall make a program participant's addresses available:

- 1) To a person identified in a court order when the order specifically requires the disclosure of a participant's address and the reasons for the disclosure; or
- 2) If the certification has been cancelled because the applicant or participant used false information in an application or made a false claim.

A program participant's application and supporting materials are not a public record and shall be kept confidential.

These sections contain a sunset clause.

SECTION 595.030

In order to properly file a criminal report with the authorities, the report of the forensic exam may be filed with the prosecuting attorney.

This section also includes unreimbursed or unreimbursable expenses incurred as a result of personal

property being seized in a criminal investigation by a law enforcement agency as "out-of-pocket loss". Under certain circumstance, a victim may receive payment for such "out-of-pocket losses" from the Crime Victims' Compensation Fund for the value of the loss sustained but shall not exceed \$250.

SECTION 595.036

This act allows any party aggrieved by a decision of the department on a claim under the Crime Victims' Compensation Fund to filing a petition with the Division of Workers' Compensation to have such decision heard de novo by an administrative law judge. The petition must be filed within 30 days of notification of mailing of such decision. Decisions of the administrative law judge shall may file a petition with the Labor and Industrial Relations Commission to review the decision. Decisions of the commission shall be heard on appeal by the court of appeals.

SECTION 595.209

This section allows a crime victim to offer a statement by counsel or a representative designated by the victim in lieu of a personal appearance at a hearing before the juvenile authorities, the board of probation and parole, or a mental health facility. The victim also has the right to have a partition set up in the probation and parole hearing room in order to shield the victim from the offender.

Under this section, an employer may not discharge or discipline an employee for attending a criminal proceeding or require any witness, victim, or member of the victim's family to use vacation time, personal time, or sick leave for honoring a subpoena to testify at, attend, or participate in a criminal proceeding.

SS/HCS/HB 741 - This act requires municipalities located in any county under the authority of the East-West Gateway Council of Governments, except Franklin County, to form a county-wide tax increment finance commission to make recommendations on proposed tax increment finance projects. Any such municipality must first obtain permission from the county-wide tax increment finance commission before implementing any tax increment finance project. In the event the county-wide tax increment finance commission makes a recommendation in opposition to a proposed project, a municipality desiring such project may approve the project only by a two-thirds majority vote of the governing body.

The act allows certain individuals to receive low interest loans through the linked deposit loan program. Loans are available for individuals starting new businesses that will remain 51% locally owned in counties that meet the following requirements:

This act requires the joint committee on tax policy to conduct a study of the feasibility of creating a program to allow municipalities within the state to engage in tax increment finance-like projects with optional tax abatement in any area of such municipality regardless of the existence of blight. The committee must report its findings to the General Assembly no later than December 31, 2007.

The act enables a taxpayer making less than \$30,000 per year who modifies their home to be accessible to a disabled person who resides with the taxpayer to claim a credit against their income tax for one hundred percent of the costs of modification, up to \$2,500. For taxpayers making between \$30,000 and \$60,000, a credit will be allowed in the amount equal to fifty percent of the costs of modification, up to \$2,500. All tax credits will be refundable, up to \$2,500 per year. The credits are not transferrable. The credit has a statewide maximum of \$100,000 per year. If ten million dollars in tax credits are not approved, for programs authorized under the rebuilding communities tax credit program, then up to the first one hundred thousand dollars in tax credits shall be used for the home modification tax Credit created by this amendment.

If any portion of the modification was claimed as a deduction on the taxpayer's federal income tax, then the amount of the tax credit shall be reduced by an amount sufficient to offset such deduction.

BOARD OF REGISTRATION FOR THE HEALING ARTS (334.120)

Currently, 5 board members must be graduates of professional schools approved and accredited as reputable by the American Medical Association or the Liaison Committee on Medical Education. This act requires at least 5 members to be graduates of professional schools accredited by the Liaison Committee on Medical Education or recognized by the Educational Commission for Foreign Medical Graduates.

NURSES (Sections 335.016, 335.036, 335.066, 335.067, 335.068, 335.076, 335.096, 335.097, 383.130, and 383.133)

The act defines "lapsed license status", "retired license status", and "temporary nursing staffing agency" and establishes notice and service requirements for disciplinary hearings before the full board.

The State Board of Nursing may establish an impaired nurse program and require nurses to enter treatment as a condition for licensure.

The State Board of Nursing may request an expedited hearing from the Administrative Hearing Commission, if the board concludes the nurse has committed an act constituting clear and present danger to the public health and safety. After 15 days from the complaint, and after a preliminary hearing, the board may immediately restrict or suspend the license. Temporary authority to restrict or suspend the license becomes final if the nurse does not request a full hearing within thirty days. Dismissal of the action does not preclude subsequent action on the same grounds.

Documentation relating to an unsubstantiated claim and those not constituting a violation are deemed sealed records under the act. Sealed records shall not be disclosed without written permission of the licensee. The board must notify the licensee if it seals any records in relation to that professional.

Advanced Practice Registered Nurses are authorized to use the acronym APRN in relation to their practices.

The act stipulates that reports made to the board are not in violation of the Federal Health Insurance Portability and Accountability Act.

Under current law, officials of hospitals and ambulatory surgical centers must report disciplinary actions taken against a licensed health care professional to their respective licensing authority. This act requires temporary nursing staffing agencies to do the same and requires the facts to be described with as much detail and information as possible.

BOARD OF NURSING (Section 335.212)

This act redefines the term “qualified employment” for the purposes of the nursing student loan program to include employment in any agency in an area of need, instead of restricting the definition to public or nonprofit agencies.

OPTOMETRISTS (Sections 336.010, 336.020, 336.030, 336.040, 336.050, 336.060, 336.070, 336.080, 336.140, 336.160, 336.220, and 336.225)

The act Modifies the definition of "the practice of optometry" and relocates provisions relating to the scope of practice found in other sections into this definition.

The act allows for reciprocity for out-of-state licensees. The act raises the continuing education requirements from 8 hours annually to 32 hours within a 2 year period.

The 30 day notice requirements for board meetings is removed.

Optometrists who are only authorized to administer diagnostic pharmaceutical agents shall refer patients to a physician under certain circumstances.

Advertising is allowed for all optometrists as long as the name of the licensee is displayed at all practice locations.

Currently, clinical and baccalaureate social workers are licensed. This act expands licensing to two additional groups: advanced macro social workers and master social workers.

Applicants for licensure as a clinical social worker must complete 3,000 hours of supervised clinical experience with a qualified clinical supervisor instead of a licensed clinical social worker.

All licensees shall complete three hours in ethics presented by a social worker with a degree.

The act differentiates between the four types of licensure as follows:

- 3,000 hours supervised clinical experience with a qualified clinical supervisor.

Continuing education requirements may be set by rule and may be waived upon a showing of illness or other good cause.

The Real Estate Commission is authorized to impose civil penalties upon licensed and unlicensed individuals in the same manner described in the above sections relating to architects, engineers, land surveyors, and landscape architects.

Currently, applicants for nursing home administrator licenses pay a fee of \$100 to the Director of Revenue. This act leaves the amount of the fee up to the board and directs the payment to the Department of Health and Senior Services.

Licensees and applicants may appeal this decision.

The act adds additional grounds upon which a licensee may be disciplined including:

- Violating any provision of law regulating convalescent, nursing and boarding homes.
- Violating any professional trust or confidence.
- Having administered a convalescent, nursing or boarding home during a time when the facility has had its license revoked
- Having entered into a consent agreement to obtain a probationary license for facilities under chapter 198 or having such a license denied or surrendered while under investigation.

The act provides for inactive license status and requirements for reactivation.

AUDIOLOGISTS (Sections 345.015, 345.030, 345.033, 345.045, 345.055, 346.015, 346.030, 346.035, 346.055, 346.060, 346.110)

The act adds fitting, programming, and dispensing of assistive listening devices and other amplification systems to the definition of the practice of audiology.

Licensed audiologists who sell devices shall deliver a purchase agreement to the purchaser containing information including the terms of the sale, name of the manufacturer, make, model, whether the item is used and other details.

Under current law, hearing instrument retailers must employ a licensed hearing aid specialist. Under the act, the retailers may employ a licensed audiologist in lieu of a specialist.

The act defines employer as one who provides an employee health benefit plan with at least 51 covered lives either at the time of the request or at the start of the reporting period and has been insured continuously with the carrier for at least the preceding 22 months.

SCS/HCS/HB 795 - This act authorizes Perry County to impose, upon voter approval, a sales tax of up to one-fourth of 1% to equally fund senior services and youth programs. A senior services tax commission must be established to administer the revenue received for senior services. This act contains ballot language and a procedure to repeal the tax. After approval, the county shall enter into an agreement with the Department of Revenue to collect the tax.

This act allows cities, towns, and villages within Clay County, Franklin County, Boone County, Jasper County or Jackson County, to form a Theater, Cultural Arts, and Entertainment District. Such counties and St. Charles County may also form such a district. Counties, cities, towns, and villages that adopt transect-based zoning may also form such districts. Currently, only municipalities in St. Charles are allowed to form such a district.

This act requires a Theater, Cultural Arts, and Entertainment District to be a minimum of 25 contiguous acres in size, rather than 50 acres. This act requires the governing body of the city or county in which a district is proposed to pass a resolution describing the district when a petition for its creation is filed. It specifies that a district may be created to fund and provide infrastructure.

This act states that if there is a conflict between the zoning or subdivision ordinances of a municipality that are based upon transect-based zoning and the provisions of any ordinance of another political subdivision with respect to street configuration, the municipality's ordinances shall prevail.

This act allows the cities of Augusta, Carrollton, Chillicothe, Liberty, Miami, Missouri City, and Pleasant Hill to impose a transient guest tax of up to 5%.

This act allows the City of Sullivan and the portion of the Sullivan C-2 School District located in Franklin County to levy a transient guest tax on charges for sleeping rooms paid by guests of hotels, motels, bed and breakfast inns and campgrounds or docking facilities. The proposed tax must be submitted to the voters and shall not be less than two percent or greater than five percent per occupied room per night.

This act allows the City of St. Louis to put before the voters a ballot measure to allows the city to impose a sales tax, not to exceed one-half of one percent, solely for the purpose of providing revenues for the operation of public safety departments.

This act allows Kansas City to establish, by order or ordinance, an administrative adjudication system for adjudicating parking and other civil, nonmoving municipal code violations. Currently, the City of St. Louis may establish such a system.

This act modifies the length of term for directors of public water supply districts elected in 2008, 2009, and 2010, due to a change in the date of their election from June to April in statute.

This act specifies that in Pulaski County, for the purpose of collecting a transient guest tax, the term "transient guest" means a person who occupies a room in a hotel or motel for 90 days or less during any calendar quarter.

SS#2/SCS/HCS/HB 818 - This act establishes the Missouri Health Insurance Portability and Accountability Act and changes the laws regarding the Missouri Health Insurance Pool and small employer insurance availability.

HEALTH CARE SHARING MINISTRY TAX DEDUCTION - This act allows taxpayers to subtract from their Missouri adjusted gross income the amount they have paid as a member of a health care sharing ministry. The deduction is only allowed to the extent that the amount is not deducted on the taxpayer's federal income tax return (Section 143.118). The act provides a definition for the term health care sharing ministry. It further provides that the insurance laws of Missouri do not apply to such organizations (Section 376.1750).

HEALTH INSURANCE PREMIUM DEDUCTION - This act authorizes 100% of the amount paid for nonreimbursed qualified health insurance premiums to be deducted from a taxpayer's Missouri taxable income to the extent the amount is not already included in the taxpayer's itemized deductions (Section 143.121). This provision is contained in HCS/HB 364 (2007).

HEALTH INSURANCE TAX CREDIT - This act allows a self-employed taxpayer, who is otherwise ineligible for the federal income health insurance tax deduction under federal law, to receive a tax credit (Section 143.119).

DOWN SYNDROME PRENATAL INFORMATION - This act requires a health care provider to provide certain information to a patient who receives a positive test result from a prenatal test for Down syndrome or other condition, including current information about the conditions tested for, the accuracy of such tests, and resources for obtaining support services for such conditions and referrals to supportive service providers, including the Missouri Alternatives to Abortion Services Program (Section 191.912).

ACCESS TO TAX REFUNDS FOR DELINQUENT MEDICAL BILLS - This act establishes a process for hospitals and other health care providers to levy a person's tax refund or lottery winnings. Under current law, Sections 143.782 to 143.788, allow state agencies to submit an agency debt that a person owes to it to the department of revenue in order to set off the debt by the person's tax refund. Under Section 143.790, a hospital or other healthcare provider may submit a claim to the Department of Health and Senior Services for any debt over 90 days old that is owed to it by a person who was not covered by health insurance or public aid at the time the health care services were administered. If the Department of Health determines that the claim is valid, the claim will become a "debt: of the agency for purposes of the act, and the Department of Health can submit the debt to the Department of Revenue to set off the person's tax refund. The act utilizes the current law with respect to providing notice to the debtor and the opportunity to contest the claim. After receiving the funds from the Department of Revenue, the Department of Health will settle with the hospital or provider. The hospital or provider will be charged an administrative fee not to exceed 20% of the collected amount. The act also provides that lottery prize payouts are subject to the same procedure (Sections 143.782, 143.790, and 313.321).

HMO DEPENDENT COVERAGE FOR DEPENDENTS WITH MENTAL OR PHYSICAL HANDICAPS - Under this act, if a HMO plan provides that dependent child coverage terminates at a certain age, the coverage shall continue while the child is incapable of self-sustaining employment because of a mental or physical handicap and is chiefly dependent upon the enrollee for support. Proof of incapacity and dependency must be provided at least 31 days after the attainment of the limiting age. HMOs may seek subsequent proof of disability and dependency.

DEPENDENT COVERAGE UNTIL AGE 25 - Under this act, if a HMO plan provides coverage for an enrollee's dependent under which coverage of the dependent terminates at a specific age before the dependent's 25th birthday, the HMO plan must nevertheless provide coverage (at the enrollee's option) to the dependent after that specific age until the dependent's 25th birthday. In addition to being no more than 25 years of age, the dependent must be unmarried, a state resident and must not be provided health insurance coverage under a health benefit plan or government program (Section 354.536).

GROUP HEALTH INSURANCE DEPENDENT COVERAGE UP TO AGE 25 - Under this act, if a group health insurance policy provides coverage for an certificate holder's dependent under which coverage of the dependent terminates at a specific age before the dependent's 25th birthday, the group plan must nevertheless provide coverage (at the certificate holder's option) to the dependent after that specific age up to the age of 25. In addition to being no more than 25 years of age, the dependent must be unmarried, a state resident and must not be provided health insurance coverage under a health benefit plan or government program (Section 376.426).

INDIVIDUAL ACCIDENT AND SICKNESS INSURANCE DEPENDENT COVERAGE - Under this act, if a policy of accident or sickness insurance provides coverage for a policyholder's dependent under which coverage of the dependent terminates at a specific age before the dependent's 25th birthday, the individual plan must nevertheless provide coverage (at the policyholder's option) to the dependent after that specific age up to the age of 25. In addition to being no more than 25 years of age, the dependent must be unmarried, a state resident and must not be provided health insurance coverage under a health benefit plan or government program (Section 376.776).

HIGH RISK POOL TO OFFER HIGH DEDUCTIBLE POLICIES COUPLE WITH HSAs - This act requires the state high risk pool to offer all eligible persons for pool coverage the option of receiving health insurance coverage through a high deductible plan coupled with a health savings account (Section 376.987).

DISCOUNT MEDICAL PLAN ORGANIZATIONS - This act establishes regulations for discount medical plan organizations that issue health discount medical plans. The provisions are contained in SCS/SB 381 (2007)(Section 376.1500 to 376.1532).

SMALL EMPLOYER HEALTH INSURANCE ACT - This act modifies Section 379.936 by allowing the premium rate for small employer health insurance to vary from the index rate by 35% rather than 25%.

MISSOURI HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT - This act amends several provisions of law relating to group health insurance (large and small group market) and individual health insurance. The act (Sections 376.450 to 376.454) attempts to make Missouri "HIPAA compliant" for purposes of federal law. HIPAA is the Health Insurance Portability Accountability Act which, amongst other things, relates to the crediting of prior health coverage for purposes of reducing preexisting condition exclusion periods and determining eligibility.

The new provisions define such terms as "excepted benefits", "pre-existing condition exclusion", "waiting period", and other terms for purposes of the Missouri health insurance portability and accountability act (Section 376.450).

Under the provisions of the act, an insurer may only exclude or limit coverage on persons if the insurer complies with Sections 376.450 to 376.454. Under the act, a health insurance issuer offering

SPONSOR: Ervin

HANDLER: Loudon

group coverage may impose a preexisting condition exclusion only if:

- (1) The exclusion relates to a condition for which medical advice, diagnosis, or treatment was recommended or received within the 6 month period ending on the enrollment date;
- (2) The exclusion extends for a period no more than 12 months, or 18 months in the case of a late enrollee; and
- (3) The period of exclusion is reduced by the aggregate period of creditable coverage.

The act sets forth rules on how to apply creditable coverage. For instance, a period of creditable coverage shall not be counted if, after such period and before the enrollment date, there was a 63-day period in which the individual was not covered by insurance. The act also sets forth rules on how to apply preexisting condition exclusions with respect to adopted children and pregnancies.

The act requires group health insurance issuers to provide certifications of creditable coverage as required by federal law.

The act sets forth rules regarding special enrollment periods in which an employee or a dependent may enroll for coverage under certain conditions. For instance, an employee may enroll for coverage if he or she was covered under another group plan when the coverage was originally offered (Section 376.450.7).

The act allows health management organizations to provide an affiliation period for coverage if no pre-existing condition exclusions are imposed, the period is applied uniformly and does not exceed two months or the period starts on the enrollment date and runs concurrently with waiting periods.

This act requires group health insurance issuers to follow standards prohibiting discrimination of eligible individuals based on physical or mental health, claims experience, medical history, genetic information, insurability, or disability and premiums based on health status.

The act establishes standards for group health insurers prohibiting discrimination on premium contributions based on health status. A group health insurer shall not individuals to, as a condition of enrollment, pay a premium that is greater than a premium from a similarly situated individual on the basis of any health status-related factor. This, however, shall not prevent a group health insurer from offering premium discounts or rebates for adherence to health promotion and disease prevention programs (Section 376.451.2).

The act sets forth rules for renewing large group health insurance plans. Under the act, health insurance issuers offering large group market plans shall renew or continue the coverage at the option of the plan sponsor. The health insurance issuer may discontinue coverage for nonpayment of premiums, fraudulent activity by the sponsor (including misrepresentation of material facts relating to coverage), sponsor's failure to comply with minimum participation requirements, sponsor's failure to comply with employer contribution requirements, and other conditions set forth in the act.

A health insurance issuer shall not discontinue offering a particular type of group coverage in the group market unless:

SPONSOR: Ervin

HANDLER: Loudon

- (1) The issuer provides at least 90 days notice of such fact to each plan's sponsor;
- (2) The issuer offers each plan sponsor the option to purchase other types of group coverage offered in the large market; and
- (3) The issuer acts uniformly without regard to the claims experience of those plan sponsors or health-status factors of any participant or new participant.

A health insurance issuer shall not discontinue offering all group coverage in the large market unless:

- (1) The health insurance issuer provides at least 180 days to the director, plan sponsors and beneficiaries prior to the date of discontinuation; and
- (2) All health insurance issued in Missouri in the large group market is continued and is not renewed.

Under this act, an employee that provides health insurance coverage may not provide such coverage if the employer has established a premium-only cafeteria plan under federal law (26 U.S.C. §125). Employers who are self-insured are not required to offer the section 125 cafeteria plan (Section 376.453).

The act sets forth similar renewal and discontinuance rules for health insurer issuers offering individual policies in the individual market (Section 376.454).

MISSOURI HEALTH INSURANCE POOL (HIGH RISK) - The act modifies the definition section that governs the Missouri high risk pool provisions. The act adds several new definitions to the high risk pool provision to bring the Missouri Health Insurance Pool into compliance with the federal Health Insurance Portability and Accountability Act (HIPPA) (Section 376.960).

The act specifically provides authority for the director of the Department of Insurance to remove pool board members for neglect of duty, misfeasance, malfeasance, or nonfeasance in office (Section 376.961).

The act allows the board to administer separate accounts to separate federally defined eligible individuals and trade act eligible individuals from other pool eligible individuals (Section 376.964).

The act establishes criteria for determining the individuals eligibility for the high-risk pool and for determining when notifications need to be provided to pool members regarding underwriting, eligibility, premiums, and changes in coverage. Under the act, the following individual persons shall be eligible for pool coverage:

- (1) An individual person who provides evidence of rejection by 2 or more insurers or refusal by an insurer to issue health insurance except at a rate exceeding the plan rate for substantially similar health insurance;
- (2) A federally defined eligible individual who has not experienced a significant break in coverage;
- (3) A trade act eligible individual;
- (4) Each resident dependent of a person who is eligible for plan coverage;

SPONSOR: Ervin

HANDLER: Loudon

(5) Any person, regardless of age, that can be claimed as a dependent of a trade act eligible individual on such trade act eligible individual's tax filing;

(6) Any person whose health insurance coverage is involuntarily terminated for any reason other than nonpayment of premium or fraud;

(7) Any person whose premiums for health insurance coverage have increased to 150% or more of rates established by the board as applicable for individual standard risks;

(8) Any person currently insured who would have qualified as a federally defined eligible individual or a trade act eligible individual between the effective date of the federal Health Insurance Portability and Accountability Act of 1996 and the effective date of this act.

The act also sets forth which individuals are not eligible for pool coverage. Under the act, persons who have or obtain coverage similar to a pool plan are ineligible for coverage. This exclusion shall not apply to a person who has such coverage if the premiums for such coverage have increased to 150% to 200% of rates established by the board (down from 300%). After December 31, 2009, the exclusion shall not apply to a person who has such coverage if the premiums for such coverage have increased to 300% of the rates established by the board (reverts back to the current 300% standard). A person may maintain eligibility by maintaining other insurance coverage in order to satisfy a preexisting condition waiting period. Similarly, a person may maintain plan coverage to satisfy a preexisting condition waiting period under another health insurance policy intended to replace the pool policy (Section 376.966.3).

Under the act, insurers are required to notify individuals of the existence of the pool and its eligibility requirements if the insurers take certain actions (rejection or cancellation of coverage or limitation of coverage) which are likely to render the individual eligible for pool coverage (Section 376.966.5).

The act requires the pool to establish premium rates for pool coverage. Premium rates and schedules must be submitted to the director for approval prior to use. The standard risk rate shall be determined by considering the premium rates charged by other health insurers offering individual coverage. The initial rates for pool coverage shall not be less than 125% of rates established as applicable for individual standard risks (down from 150%). In no event shall pool rates exceed 150% of the standard rate charge for federally defined eligible individuals and trade act eligible individuals. The same standard applies to other individuals covered under the pool (150%)(down from 200% of standard rate) (Section 376.986.4).

The act requires pool coverage to exclude expenses for 12 months for pre-existing conditions. The act excludes certain individuals (including federally defined eligible individuals and trade act eligible individuals) without significant gaps in coverage (63 days) from pre-existing condition exclusions (Section 376.986.6 and .7).

The act specifically exempts the pool board administrator, board members, and pool employees from legal action pertaining to participation in the required duties of the pool (Section 376.989).

SMALL EMPLOYER HEALTH INSURANCE AVAILABILITY ACT - The act modifies the definition section that governs the Small Employer Health Insurance Availability Act to bring that portion of Missouri law into compliance with the federal Health Insurance Portability and Accountability Act (HIPPA) (Section 376.930). Most notably, the act modifies the definition of "small employer" to mean an employer that employs on average at least two but no more than 50 eligible employees (increased from

SPONSOR: Ervin

HANDLER: Loudon

25 employees).

The act modifies the provision governing when a small employer may renew a small employer health benefit plan. The act provides that a small employer carrier that elects to discontinue offering a particular plan must provide at least 90 days notice to each plan sponsor and offer each plan sponsor the option to purchase other health benefit plans. A small employer carrier that elects to discontinue offering all health insurance coverage in Missouri must provide at least 180 days notice to the director and each plan sponsor. The act provides that an eligible employee of a small employer may choose to retain their individual health insurance policy at the time of open enrollment so long as the small employer provides a defined contribution through a cafeteria 125 plan.

The act repeals three provisions that related to the establishment and operation of the Missouri Small Employer Health Reinsurance Program and the Health Benefit Plan Committee (which is in essence is defunct as its statutory duty has already been performed)(Sections 379.942, 379.943, and 379.944).

MCHCP AND HIGH DEDUCTIBLE PLANS - This act requires the Missouri Consolidated Health Care Plan to offer all qualifies state employees and retirees the option of receiving health care coverage through a high deductible plan combined with a health savings account beginning with the 2009 open enrollment period (sections 103.080 and 103.085).

HIGH RISK POOL BOARD OF DIRECTORS - This act adds 5 ex officio members to the high risk pool board (2 House members, 2 Senators and 1 representative from a Missouri hospital). Their terms shall expire December 31, 2009 (section 376.961).

NEWBORN SCREENING

Under current law, every infant born in Missouri is tested for certain metabolic and genetic diseases and specified health professionals attending to births are required to assure that appropriate specimens are collected and submitted to the Department of Health and Senior Services. All medical test results and personal information relating to genetic testing and obtained from any individual shall be held confidential by the department with certain exceptions. This act provides that in addition to the certain prescribed exceptions, the department may release the results of newborn screening tests to a child's healthcare professional.

However, at the time of collection, the parent or legal guardian of the child from whom the specimen was obtained may direct the department to return, destroy or store the specimen. A specimen released for anonymous study shall not contain information that may be used to determine the identity of the donor.

The department may charge a reasonable fee for the use of such specimens for public health research and preparing and supplying specimens for research proposals approved by the department. (Sections 191.300 and 191.317, 191.331.9)

HCS/HB 1055 - This act modifies provisions relating to abortion.

SEXUAL EDUCATION - This act revises current law requirements for the presentation of information in public schools relating to contraception and sexually transmitted diseases.

Current law asserts that students must be presented with the latest medically factual information regarding side effects, health benefits, and failure rates for methods of prevention of pregnancy and sexually transmitted diseases. This act alters this provision, adding the option of presenting students with information on contraceptives and pregnancy in a manner consistent with federal abstinence laws.

School districts and charter schools are prohibited from providing abortion services or allowing a person or entity who provides abortion services from offering, sponsoring, or furnishing course materials related to human sexuality and sexually transmitted diseases.

The act explicitly states that its provisions are applicable to charter schools.

These provisions are substantially similar to SB 432 (2007).

MEDICAL EMERGENCIES - Under this act, definitions for "department" and "medical emergency" were added in the chapter regulating abortions.

This act also modifies certain penalties relating to abortion. Currently, there are penalties for any person who knowingly performs or aids in the performance of any abortion. This act includes penalties for those persons who knowingly induce or aid in the inducing of an abortion.

This act also provides for an affirmative medical emergency defense for violations of any abortion provision. Medical emergency is defined as a condition which, on the basis of a physician's good-faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert the death of the pregnant woman or for which delay will create a serious risk of substantial and irreversible impairment of a major bodily function of the pregnant woman.

These provisions are substantially similar to SB 992 (2006).

AMBULATORY SURGICAL CENTER DEFINITION - This act modifies the definition of "ambulatory surgical center" in Section 197.200, RSMo, to include "any establishment operated for the purpose of performing or inducing any second or third trimester abortions or at least five or more first trimester abortions per month."

These provisions are identical to SB 1199 (2006).

ALTERNATIVES TO ABORTION - This act establishes the Missouri Alternatives to Abortion Services Program and the Missouri Alternatives to Abortion Public Awareness Program. Such programs will provide services or counseling to pregnant women as well as assistance to women in caring for their children or placing them up for adoption. Counseling and services are available to a woman during her pregnancy and for one year after the birth of her child. The department or departments to which the programs are to be assigned by appropriations are required to develop an advertising campaign publicizing alternatives to abortion and to prioritize federal, public, and private moneys so that they are
